> Use Menus and Table of Contents for easy navigation

The image shows a screenshot of the CyberRegs website in a Microsoft Internet Explorer browser window. The browser title is "CyberRegs - Connecting a World of Knowledge - Microsoft Internet Explorer". The address bar shows the URL: [http://www.cyberregs.com/cgi-exe/cpage.dll?pg=x&rp=\(nonindx\)/CFR/cfrmenu1.htm&sid=20C](http://www.cyberregs.com/cgi-exe/cpage.dll?pg=x&rp=(nonindx)/CFR/cfrmenu1.htm&sid=20C). The website header includes the CyberRegs logo and navigation links: Home, USA Federal, USA States, International, Solution Partners, Private Documents, Search, Options. Below the header is a toolbar with icons for My Bookmarks, Quick Link, Community E-mail, Highlighting Search Tool, My Site Log, My Inbox, Annotation Editor, and More Options. The main content area displays "Code of Federal Regulations" with a note: "CFR Titles are current as of January 31, 2007." A "Quick link to:" section lists CFR titles from 1 to 15, with "40 CFR" circled in black. An arrow points from the circled "40 CFR" to a smaller screenshot of the website showing the "Title 40 - Protection of Environment" page. This smaller screenshot shows a table of contents for Title 40, listing part ranges and divisions.

Code of Federal Regulations

CFR Titles are current as of January 31, 2007.

# Research Productivity

- > Link to referenced documents directly from keyword search results

The image shows two overlapping screenshots of a Microsoft Internet Explorer browser window. The top window displays a document titled "3745-31-19 Attainment provisions - notice to the United States environmental protection agency." A link in the text, "3745-31-01 of the Administrative Code," is circled in black. An arrow points from this link to a second browser window. The second window shows the referenced document, "§81.336 Ohio," which contains a table of designated areas.

**3745-31-19 Attainment provisions - notice to the United States environmental protection agency.**

[Comment: For dates of non-regulatory government publications, publications of recognized organizations and associations, federal rules, and federal statutory provisions referenced in this rule, see "Incorporation by Reference" at the [end of rule 3745-31-01](#) of the Administrative Code.]

(A) Applicability

This rule applies to any major stationary source or major modification that is to be constructed in an area designated in 40 CFR 81.336 as attainment for an air pollutant for which the major stationary source or major modification is major.

(B) Notice to the United States environmental protection agency

The director shall, upon request, transmit to the United States environmental protection agency a copy of each permit application relating to a major stationary source or major modification and a notice to the administrator of every action taken to implement the permit.

(C) Denial-impact on air quality-related

The director shall consider comments from the United States environmental protection agency on such land source or major modification would have a significant impact on air quality in a << Class I >> lands, notwithstanding that such source or major modification would not cause a significant increase in air quality in a << Class I >> area. If the director determines that such source or major modification would have a significant impact on air quality in a << Class I >> area, the director shall deny the permit application.

(D) << Class I >> variances

The owner or operator of a proposed major stationary source or major modification in a << Class I >> area shall submit to the state, the director may, provided that the state has the authority to enforce the limitations necessary to assure that emissions from such source or major modification do not result in a violation of the applicable air quality criteria.

<b>Condition Met</b>	#12 (Articles having keyword PENNSYLVANIA)
<b>Summary</b>	This final rule provides that the Department of the Treasury may announce that certain marketable Treasury securities to be offered will not be eligible for purchase or holding in the Legacy Treasury Direct system. Treasury is issuing this amendment to the auction rules because the Legacy Treasury Direct system will eventually be phased out.

<b>Title</b>	<a href="#">Air Quality: Revision to Definition of Volatile Organic Compounds-Exclusion of HFE-7300</a>
<b>Citation</b>	Final Rule for <a href="#">40 CFR Part 51</a>
<b>Reference</b>	01/18/2007 72 FR 2193-2197 (Vol. 72, No. 11)
<b>Issuer</b>	ENVIRONMENTAL PROTECTION AGENCY
<b>Conditions Met</b>	#6 (Articles with citation 40 CFR part 51) #31 (Articles having keyword VOC)
<b>Summary</b>	This action revises EPA's definition of volatile organic compounds (VOC) for purposes of preparing State implementation plans (SIPs) to attain the national ambient air quality standards (NAAQS) for ozone under title I of the Clean Air Act (CAA). This revision would add 1,1,1,2,2,3,4,5,5,5-decafluoro-3-methoxy-4-trifluoromethyl-pentane [also known as HFE-7300 or L-14787 or C2F5CF(OCH3)CF(CF3)2] to the list of compounds excluded from the definition of VOC on the basis that this compound makes a negligible contribution to tropospheric ozone formation. If you use or produce HFE-7300 and are subject to EPA regulations limiting the use of VOC in your product, limiting the VOC emissions from your facility, or otherwise controlling your use of VOC for purposes related to attaining the ozone NAAQS, then you will not count HFE-7300 as a VOC in determining whether you meet these regulatory obligations. This action may also affect whether HFE-7300 is considered as a VOC for State

## §707.65 Submission to agency

~~(a) Exporters must notify EPA of their export or intended export of each regulated chemical in accordance with the following >>~~

(a) For each action under TSCA triggering export notification, exporters must notify EPA of their export or intended export of each subject chemical substance or mixture for which export notice is required under §707.60 in accordance with the following >>

(1) The notice must be in writing;

~~(2)(i) The notice must be for the first export or intended export by an exporter to a particular country in a calendar year when the chemical substance or mixture is the subject of an order issued, an action that is pending, or relief that has been granted under TSCA section 5(f), a rule that has been proposed or promulgated under TSCA section 6, or an action that is pending or relief that has been granted under TSCA section 7 >>~~

**Editor's Note:** The previous highlighted text was changed from the following.

~~(2)(i) The notice must be for the first export or intended export to a particular country in a calendar year when data are required under section 5(b), an order has been issued under section 5, a rule has been proposed or promulgated under section 5 or 6, or an action is pending or relief has been granted under section 5 or 7.~~

~~(i) The notice must be for the first export or intended export to a particular country when data are required under section 4 >>~~

(ii) The notice must only be for the first export or intended export by an exporter to a particular country when the chemical substance or mixture is the subject of an order issued, an action that is pending, or relief that has been granted under TSCA section 5(e), a rule that has been proposed or promulgated under TSCA section 5(a)(2), or when the submission of data is required under TSCA section 4 or 5(b). Under this paragraph, notice of export to a particular country is not required if an exporter previously submitted to EPA a notice of export to that country prior to January 16, 2007 >>

(3) The notice must be postmarked within seven days of forming the intent to export or on the date of export, whichever is earlier. A notice of intent to export must be based on a definite contractual obligation or an equivalent
