Standards Subscriptions from ANSI
Your Home page is customizable! You company administrator can add your company logo and important messages for your users.
Your Home page also provides ANSI News and Events as well as external links to additional resources.

Customized Standards Collection for American National Standards Institute (ANSI)

Important Notices

- If you need assistance with the ANSI Standards Connect subscription, please contact the ANSI Technical Information Center for further information.

  ANSI Technical Information Center (ATIC)
  Phone: 1.212.642.4917
  Email: bhager@ansi.org

Permitted Uses

- Access to the ANSI Standards Connect content is limited to authorized users of computer networks at ANSI facilities, which excludes dealers, suppliers, and other partners.
- You MAY view/download and print standards in the collections.
- You MAY NOT store any of the standards on a shared server for multiple users to access.
- You MAY NOT provide standards obtained via Standards Connect to dealers, suppliers, or other partners.

Other Standards Resources

- EU/EC/EEC - European Union legislation, regulations, directives, decisions, etc. are available from Eur-Lex
- IBR - Visit the ANSI IBR Portal to access free, read-only standards that have been incorporated by reference (IBR) in the U.S. Code of Federal Regulations (CFR), including standards from NFPA, API, NACE, MSS, ICC, NEMA, and others.
From the Home Page you will be able to:

- Search and Browse standards
- Read Important messages
- View “My Alerts”
- View “My Favorites”
- Manage Lists
- Access Help
- Log Out

And use many other features and functions.
These navigation links provide you quick access to important information.
Contact

Permitted Uses
- Access to the ANSI Standards Connect content is limited to authorized users of computer networks at ANSI facilities, which excludes dealers, suppliers, and other partners.

You MAY view/download and print standards in the collections.

You MAY NOT store any of the standards on a shared server for multiple users to access.

You MAY NOT provide standards obtained via Standards Connect to dealers, suppliers, or other partners.

Select the tab for Document Number to search only in the standard document number field.
Even if you only know a partial document number, type the number and an auto-populated drop down of suggested standards you can select from will be shown.
SEARCH standards

Select the tab for Keyword to search on keywords that pertain to the document that you are trying to locate.
You can limit your search results to what is in your subscription. Simply click the radio button to My Subscription and the search is conducted only on documents within your subscription.
You can run searches on the entire ANSI STANDARDS CONNECT catalog. Simply click the radio button to select Full Catalog and the search is conducted on all documents.
Additional search filters are available after a search is performed.
Additional Search Filters
You can further refine your search results to specific Content Providers’ content by simply clicking on the desired box.
In this search example, we have selected the tab to perform a Document Number and selected the radio button for a Full Catalog search on "2700". To execute the search we hit the search button.
Once we perform the search we can further refine our search results by selecting specific Content providers and/or Status boxes.
The standards that meet our search criteria are displayed with valuable detail and navigation options.
Users can select the number of items displayed on a page. Pages can easily be navigated using the page numbers found on the top and bottom of the results listing.
SEARCH Results Status
Search results readily show the Status of the standards.
Search results readily show which standards are immediately available for download and those that must be purchased because they are not in the subscription.
SEARCH Results Purchase Option

Simply click on the PURCHASE button to be taken to a page with retail purchase options for the standard.
Individual standard purchase

With a deposit account set-up as part of your ANSI STANDARDS CONNECT portal you can purchase an individual standard by simply reading and agreeing to the Terms of Use and selecting the DOWNLOAD button.
SEARCH Results
Document Access

Simply click on the download button to access the standard in PDF format.
Record Details Description
Clicking the Records Details Description tab provides the standards’ abstract and other general information about the standard.
Clicking the Records related Documents tab provides links to the standards’ amendments, corrigenda and referenced standards.
ISO/IEC 27002:2013

Information technology Security techniques Code of practice for information security controls

Revises: ISO/IEC 27002:2005

Other Versions

Clicking the Other Versions tab provides links to the standards' previous and post versions, if applicable.
Clicking the Permalink tab allows you to generate a link to the most current version of the standard. This link can be copied and pasted in internal documentation.
Additional Function Links

Provide you quick links to browse all documents in lists you have created.
MY ALERTS is your quick link to browse all documents you have selected to be alerted on when a change to a standard is made.
You can select to be alerted to changes to selected standards or to all standards you subscribe to.
You can also select standards to be alerted to changes to from any search results lists by simply clicking on the alarm clock icon 🕒. When the icon is green it is an indication that the standard is part of your Alert list.
You can select to be alerted to changes in standards that are part of your subscription and/or part of the ANSI STANDARDS CONNECT catalog.
Hello, User Name

MY FAVORITES is your quick link to browse all documents you have selected as your favorites.
You can select standards to create a list of favorite standards. The standards selected can be a part of your subscription and/or part of the ANSI STANDARDS CONNECT catalog.
You can select standards to be added to your Favorites lists by simply clicking on the star icon. When the icon is green it is an indication that the standard is part of your Favorites list.
WATCH LISTS is your quick link to create and view lists of standards you create or are shared by others.
You can create a new Watch List or modify an existing list. To create a new list simply click the link and fill in the appropriate information.
WATCH LISTS
You can select standards to be added to a Watch List by simply clicking on the list icon. When the icon is green it is an indication that the standard is part of a Watch List.
