## **REVISED AMERICAN NATIONAL STANDARD/AMERICAN DENTAL ASSOCIATION STANDARD NO. 1000 FOR A STANDARD CLINICAL DATA ARCHITECTURE**

The Council on Dental Practice of the American Dental Association has approved American Dental Association Standard No. 1000 for a Standard Clinical Data Architecture. Working Groups of the ADA Standards Committee on Dental Informatics (SCDI) formulate this and other standards and technical reports for the application of information technology and other electronic technologies to dentistry's clinical and administrative operations. The ADA SCDI has representation from appropriate interests in the United States in the standardization of information technology and other electronic technologies used in dental practice. The standard was forwarded to the American National Standards Institute with a recommendation that the standard be approved as an American National Standard. Approval of ADA Standard No. 1000 as an American National Standard was granted by the American National Standards Institute on February 22, 2010.

The ADA Standards Committee on Dental Informatics thanks the members of Working Group 11.1 on Standard Clinical Data Architecture and the organizations with which they were affiliated at the time the standard was developed:

Mark Diehl (chairman), Mark Diehl Consulting, Rensselaer, NY;  
Robert Ahlstrom, College of the Pacific and private practice, Reno, NV;  
Kenneth W. Aschheim, Mount Sinai Medical Center, New York, NY;  
Arden Forrey, University of Washington, Seattle, WA;  
Gary Guest, University of Texas Health Science Center, San Antonio, TX;  
Antonio F. Magni, topsOrtho, Inc., Marietta, GA;  
Jim McLees, National Association of Dental Laboratories, Kent, WA;  
Jean Narcisi, American Dental Association, Chicago, IL;  
Robert Owens, American Dental Association, Chicago, IL;  
Titus Schleyer, S3 Web Technologies, Wexford, PA;  
Robert Shaw, private practice, Spokane, WA;  
Scott Trapp, U.S. Public Health Service, Ogema, MN; and  
Gregory G. Zeller, University of Maryland, Baltimore.

In addition, many members of other SCDI working groups and other standards developing organizations, including HL7 and ASTM; and experts from the private sector and federal government, contributed comments and suggestions.

**REVISED AMERICAN NATIONAL STANDARD/AMERICAN DENTAL ASSOCIATION STANDARD NO. 1000 FOR A  
STANDARD CLINICAL DATA ARCHITECTURE**
