

## CONTENTS

Foreword .....		vii
Committee Personnel .....		ix
Introduction .....		xii
Summary of Changes .....		xiv
<b>General Provisions and Definitions</b>		
801	General .....	1
802	Scope and Intent .....	1
803	Piping Systems Definitions .....	2
804	Piping Systems Component Definitions .....	4
805	Design, Fabrication, Operation, and Testing Terms .....	6
807	Quality Assurance .....	7
<b>Chapter I Materials and Equipment</b>		
810	Materials and Equipment .....	8
811	Qualification of Materials and Equipment .....	8
812	Materials for Use in Cold Climates .....	9
813	Marking .....	9
814	Material Specifications .....	9
815	Equipment Specifications .....	9
816	Transportation of Line Pipe .....	10
817	Conditions for the Reuse of Pipe .....	10
<b>Chapter II Welding</b>		
820	Welding .....	12
821	General .....	12
822	Preparation for Welding .....	12
823	Qualification of Procedures and Welders .....	12
824	Preheating .....	13
825	Stress Relieving .....	13
826	Inspection of Welds .....	14
827	Repair or Removal of Defective Welds in Piping Intended to Operate at Hoop Stress Levels of 20% or More of the Specified Minimum Yield Strength .....	15
<b>Chapter III Piping System Components and Fabrication Details</b>		
830	Piping System Components and Fabrication Details .....	16
831	Piping System Components .....	16
832	Expansion and Flexibility .....	22
833	Design for Longitudinal Stress .....	23
834	Supports and Anchorage for Exposed Piping .....	25
835	Anchorage for Buried Piping .....	26
<b>Tables</b>		
831.42	Reinforcement of Welded Branch Connections, Special Requirements .....	21
832.2	Thermal Expansion of Carbon and Low Alloy Steel .....	22
832.5	Modulus of Elasticity for Carbon and Low Alloy Steel .....	23
<b>Chapter IV Design, Installation, and Testing</b>		
840	Design, Installation, and Testing .....	27
841	Steel Pipe .....	29
842	Other Materials .....	40
843	Compressor Stations .....	46

844	Pipe-Type and Bottle-Type Holders .....	49
845	Control and Limiting of Gas Pressure .....	50
846	Valves .....	58
847	Vaults .....	58
848	Customers' Meters and Regulators .....	59
849	Gas Service Lines .....	60
<b>Tables</b>		
841.114A	Basic Design Factor, $F$ .....	30
841.114B	Design Factors for Steel Pipe Construction .....	31
841.115A	Longitudinal Joint Factor, $E$ .....	32
841.116A	Temperature Derating Factor, $T$ , for Steel Pipe .....	32
841.322(f)	Test Requirements for Pipelines and Mains to Operate at Hoop Stresses of 30% or More of the Specified Minimum Yield Strength of the Pipe .....	39
841.33	Maximum Hoop Stress Permissible During Test .....	39
842.214	Standard Thickness Selection Table for Ductile Iron Pipe .....	41
842.32(c)	Wall Thickness and Standard Dimension Ratio for Thermoplastic Pipe ....	42
842.33(c)	Diameter and Wall Thickness for Reinforced Thermosetting Plastic Pipe .....	42
842.396(c)	Nominal Values for Coefficients of Thermal Expansion of Thermoplastic Pipe Materials .....	44
<b>Chapter V Operating and Maintenance Procedures</b>		
850	Operating and Maintenance Procedures Affecting the Safety of Gas Transmission and Distribution Facilities .....	64
851	Pipeline Maintenance .....	66
852	Distribution Piping Maintenance .....	71
853	Miscellaneous Facilities Maintenance .....	74
854	Location Class and Changes in Number of Buildings Intended for Human Occupancy .....	76
855	Concentrations of People in Location Classes 1 and 2 .....	77
856	Pipeline Service Conversions .....	78
<b>Table</b>		
854.1(c)	Location Class .....	77
<b>Chapter VI Corrosion Control</b>		
860	Corrosion Control .....	79
861	Scope .....	79
862	External Corrosion Control .....	79
863	Internal Corrosion Control .....	82
864	Pipelines in Arctic Environments .....	84
865	Pipelines in High-Temperature Service .....	85
866	Stress Corrosion and Other Phenomena .....	85
867	Records .....	86
<b>Chapter VII Miscellaneous</b>		
870	Miscellaneous .....	87
871	Odorization .....	87
872	Liquefied Petroleum Gas (LPG) Systems .....	87
873	Pipelines on Private Rights-of-Way of Electric Transmission Lines .....	88
<b>Chapter VIII Offshore Gas Transmission</b>		
A800	Offshore Gas Transmission .....	89
A801	General .....	89
A802	Scope and Intent .....	89
A803	Offshore Gas Transmission Definitions .....	89
A811	Qualification of Materials and Equipment .....	90
A814	Material Specifications .....	90

A817	Conditions for the Reuse and Requalification of Pipe .....	90
A820	Welding Offshore Pipelines .....	91
A821	General .....	91
A823	Qualification of Procedures and Welders .....	91
A825	Stress Relieving .....	91
A826	Welding and Inspection Tests .....	91
A830	Piping System Components and Fabrication Details .....	92
A831	Piping System Components .....	92
A832	Expansion and Flexibility .....	92
A834	Supports and Anchorage for Exposed Piping .....	92
A835	Anchorage for Buried Piping .....	92
A840	Design, Installation, and Testing .....	92
A841	Design Considerations .....	92
A842	Strength Considerations .....	93
A843	Compressor Stations .....	96
A844	On-Bottom Stability .....	97
A846	Valves .....	98
A847	Testing .....	98
A850	Operating and Maintenance Procedures Affecting the Safety of Gas Transmission Facilities .....	99
A851	Pipeline Maintenance .....	99
A854	Location Class .....	100
A860	Corrosion Control of Offshore Pipelines .....	100
A861	Scope .....	100
A862	External Corrosion Control .....	100
A863	Internal Corrosion Control .....	102

**Table**

A842.22	Design Factors for Offshore Pipelines, Platform Piping, and Pipeline Risers .....	94
---------	--	----

**Chapter IX**

**Sour Gas Service**

B800	Sour Gas Service .....	103
B801	General .....	103
B802	Scope and Intent .....	103
B803	Sour Gas Terms and Definitions .....	103
B813	Marking .....	104
B814	Material Specifications .....	104
B820	Welding Sour Gas Pipelines .....	104
B821	General .....	104
B822	Preparation for Welding .....	104
B823	Qualifications of Procedures and Welders .....	104
B824	Preheating .....	104
B825	Stress Relieving .....	104
B826	Welding and Inspection Tests .....	105
B830	Piping System Components and Fabrication Details .....	105
B831	Piping System Components .....	105
B840	Design, Installation, and Testing .....	105
B841	Steel Pipe .....	105
B842	Other Materials .....	106
B843	Compressor Stations .....	106
B844	Pipe-Type and Bottle-Type Holders .....	106
B850	Additional Operating and Maintenance Considerations Affecting the Safety of Sour Gas Pipelines .....	106
B851	Pipeline Maintenance .....	107
B855	Concentrations of People in Location Classes 1 and 2 .....	107
B860	Corrosion Control of Sour Gas Pipelines .....	107
B861	General .....	107

B862	External Corrosion Control .....	107
B863	Internal Corrosion Control .....	108
B866	Stress Corrosion and Other Phenomena .....	108
<b>Appendices</b>		
A	References .....	109
B	Numbers and Subjects of Standards and Specifications That Appear in Appendix A .....	112
C	Publications That Do Not Appear in the Code or Appendix A .....	113
D	Specified Minimum Yield Strength for Steel Pipe Commonly Used in Piping Systems .....	115
E	Flexibility and Stress Intensification Factors .....	117
F	Extruded Headers and Welded Branch Connections .....	123
G	Testing of Welders Limited to Work on Lines Operating at Hoop Stresses of Less Than 20% of the Specified Minimum Yield Strength ....	128
H	Flattening Test for Pipe .....	129
I	End Preparations for Buttwelding .....	130
J	Commonly Used Conversion Factors .....	137
K	Criteria for Cathodic Protection .....	141
L	Determination of Remaining Strength of Corroded Pipe .....	143
M	Gas Leakage Control Criteria .....	144
N	Recommended Practice for Hydrostatic Testing of Pipelines in Place .....	151
O	Preparation of Technical Inquiries to the ASME Code for Pressure Piping, B31 .....	153
P	Nomenclature for Figures .....	154
Q	Scope Diagrams .....	155
R	Estimating Strain in Dents .....	158
<b>Index</b>	.....	160
