Metallic Gaskets for Pipe Flanges

AN AMERICAN NATIONAL STANDARD

The American Society of Mechanical Engineers
Metallic Gaskets for Pipe Flanges
The next edition of this Standard is scheduled for publication in 2022.

ASME issues written replies to inquiries concerning interpretations of technical aspects of this Standard. Periodically certain actions of the ASME B16 Committee may be published as Cases. Cases and interpretations are published on the ASME Web site under the Committee Pages at http://cstools.asme.org/ as they are issued.

Errata to codes and standards may be posted on the ASME Web site under the Committee Pages to provide corrections to incorrectly published items, or to correct typographical or grammatical errors in codes and standards. Such errata shall be used on the date posted.

The Committee Pages can be found at http://cstools.asme.org/. There is an option available to automatically receive an e-mail notification when errata are posted to a particular code or standard. This option can be found on the appropriate Committee Page after selecting “Errata” in the “Publication Information” section.

ASME is the registered trademark of The American Society of Mechanical Engineers.
CONTENTS

Foreword ................................................................. v
Committee Roster ...................................................... vi
Correspondence With the B16 Committee .......................... vii
Important Information Concerning Use of Asbestos or Alternative Materials ................. ix
Summary of Changes .................................................. x
List of Changes in Record Number Order ............................ xi

PART GR General Requirements ...................................... 1
GR-1 Scope ................................................................ 1
GR-2 Quality Systems .................................................. 1
GR-3 References ........................................................ 1
GR-4 Relevant Units .................................................... 1

PART RJ Ring-Joint Gaskets ............................................ 2
RJ-1 Types ................................................................ 2
RJ-2 Size ................................................................ 2
RJ-3 Materials .......................................................... 2
RJ-4 Marking .............................................................. 2
RJ-5 Dimensions and Tolerances ..................................... 2
RJ-6 Surface Finish ..................................................... 2
RJ-7 Identification Number ........................................... 2

PART SW Spiral-Wound Gaskets ...................................... 15
SW-1 Size and Class ...................................................... 15
SW-2 Dimensions and Tolerances .................................... 15
SW-3 Materials .......................................................... 16
SW-4 Marking ............................................................ 16

PART JA Jacketed Gaskets ............................................. 33
JA-1 Size and Pressure Class .......................................... 33
JA-2 Design .............................................................. 33
JA-3 Dimensions and Tolerances .................................... 33
JA-4 Materials .......................................................... 33
JA-5 Marking .............................................................. 33

PART GM Grooved Metal Gaskets With Covering Layers ........ 39
GM-1 Size and Class ...................................................... 39
GM-2 Dimensions and Tolerances .................................... 39
GM-3 Materials .......................................................... 39
GM-4 Marking .............................................................. 39

Mandatory Appendix
I References ............................................................... 48
Nonmandatory Appendix

A Quality System Program .............................................. 49

Figures

SW-2.1-1 Spiral-Wound Gasket ........................................ 17
JA-3-1 Jacketed Gasket ................................................. 34
GM-2.1-1 Grooved Metal Gasket With Covering Layers .............. 40
GM-4.1-1 Illustration of Example Markings for Grooved Metal Gaskets With Covering Layers ..... 47

Tables

RJ-3.2-1 Maximum Hardness for Ring Gaskets .......................... 3
RJ-4-1 Ring Gasket Markings ........................................... 3
RJ-5-1 Type R Ring Gasket Dimensions and Tolerances ............ 4
RJ-5-2 Pipe Sizes for Type R Ring Gaskets Suitable for Referenced Standards .............. 7
RJ-5-3 Type RX Ring Gasket Dimensions and Tolerances .......... 10
RJ-5-4 Pipe Sizes for Type RX Ring Gaskets Suitable for Referenced Standards .......... 12
RJ-5-5 Type BX Ring Gasket Dimensions and Tolerances .......... 13
RJ-5-6 Pipe Sizes for Type BX Ring Gaskets Suitable for Referenced Standards .......... 14
SW-2.1-1 Dimensions for Spiral-Wound Gaskets Used With ASME B16.5 Flanges ............... 18
SW-2.1-2 Dimensions for Spiral-Wound Gaskets Used With ASME B16.47 Series A Flanges ............. 20
SW-2.1-3 Dimensions for Spiral-Wound Gaskets Used With ASME B16.47 Series B Flanges ............. 22
SW-2.1-4 Inside Diameters of Inner Rings for Spiral-Wound Gaskets for Use With ASME B16.5 Flanges .... 24
SW-2.1-5 Inside Diameters of Inner Rings for Spiral-Wound Gaskets Used Between ASME B16.47 Series A Flanges ........................................ 25
SW-2.1-6 Inside Diameters of Inner Rings for Spiral-Wound Gaskets Used Between ASME B16.47 Series B Flanges ........................................ 26
SW-2.5-1 Minimum Pipe Wall Thickness Suitable for Use of Spiral-Wound Gaskets With Inner Rings for ASME B16.5 Flanges ........................................ 27
SW-2.5-2 Maximum Bore of ASME B16.5 Flanges for Use With Spiral-Wound Gaskets ............. 28
SW-2.5-3 Maximum Bore of ASME B16.47 Series A Flanges for Use With Spiral-Wound Gaskets ..... 29
SW-2.5-4 Maximum Bore of ASME B16.47 Series B Flanges for Use With Spiral-Wound Gaskets ..... 30
SW-3-1 Color Coding and Abbreviations for Spiral-Wound Gasket Materials ........................ 31
SW-4.1-1 Example Markings for Spiral-Wound Gaskets ............... 32
JA-3-1 Jacketed Gasket Dimensions for ASME B16.5 Flanges .......................... 35
JA-3-2 Jacketed Gasket Dimensions for ASME B16.47 Series A Flanges .......................... 36
JA-3-3 Jacketed Gasket Dimensions for ASME B16.47 Series B Flanges .......................... 37
JA-4-1 Abbreviations for Identifying Materials for Jacketed Gaskets .......................... 38
JA-5.1-1 Example Markings for Jacketed Gaskets .......................... 38
GM-2.1-1 Dimensions for Grooved Metal Gaskets With Covering Layers Used With ASME B16.5 Flanges .... 41
GM-2.1-2 Dimensions for Grooved Metal Gaskets With Covering Layers Used With ASME B16.47 Series A Flanges ........................................ 42
GM-2.1-3 Dimensions for Grooved Metal Gaskets With Covering Layers Used With ASME B16.47 Series B Flanges ........................................ 44
GM-3.1-1 Color Coding and Abbreviations for Grooved Metal Gaskets With Covering Layers Materials 46
GM-4.1-1 Example Markings for Grooved Metal Gaskets With Covering Layers .................... 47
