

ASME PTC 25-2001
(Revision of ASME PTC 25-1994)

**PRESSURE
RELIEF DEVICES**

PERFORMANCE TEST CODES

An American National Standard

The American Society of
Mechanical Engineers

CONTENTS

Foreword		vii
Committee Roster		viii
0 Introduction		1
1 Object and Scope		1
1.1 Object		1
1.2 Scope		1
1.3 Measurement Uncertainty		1
1.4 General		1
2 Definitions and Description of Terms		3
2.1 Purpose		3
2.2 General		3
2.3 Types of Devices		3
2.4 Parts of Pressure Relief Devices		4
2.5 Dimensional Characteristics — Pressure Relief Valves		6
2.6 Dimensional Characteristics — Nonreclosing Pressure Relief Devices		6
2.7 Operational Characteristics of Pressure Relief Devices		6
2.8 Description of Terms		9
 Part I Flow Capacity Testing		
3 Guiding Principles		12
3.1 Items on Which Agreement Shall Be Reached		12
3.2 Qualification of Person Supervising the Test		12
3.3 Responsibility of Person Supervising the Test		12
3.4 Test Apparatus		12
3.5 Preliminary Tests		12
3.6 Spare Instruments		12
3.7 Calibration of Instruments		13
3.8 Metering Sections		13
3.9 Flow Resistance Test Rigs		13
3.10 Adjustments During Tests		15
3.11 Records and Test Results		15
3.12 Measurement Uncertainty		15
4 Instruments and Methods of Measurements		16
4.1 General		16
4.2 Fluid Conditions, Test Conditions, and Instrumentation		16
4.3 Testing With Steam, Pressure Relief Device Discharging to Atmospheric Pressure		21

4.4	Testing With Gas or Air, Pressure Relief Device Discharging to Atmospheric Pressure	24
4.5	Testing With Liquids, Pressure Relief Devices Discharging to Atmospheric Pressure	25
4.6	Testing With Steam, With Back Pressure Above Atmospheric	27
4.7	Testing With Gas or Air, With Back Pressure Above Atmospheric	29
4.8	Testing With Liquids, With Back Pressure Above Atmospheric	31
4.9	Testing With Gas or Air, Nonreclosing Pressure Relief Device Flow Resistance Method	32
4.10	Testing Nonreclosing Pressure Relief Devices to Determine a Set Pressure for Incompressible Fluids	33
5	Computations of Results	36
5.1	Correction of Measured Variables	36
5.2	Review of Instrument Readings	36
5.3	Use of Equation Symbols	36
5.4	Density	36
5.5	Capacity Calculations	36
6	Test Summary Report Form	50
6.1	General Instructions	50
6.2	Part I: General Information	50
6.3	Part II: Summary of Results	50
6.4	Part III: Description of Device Under Test	50
6.5	Part IV: Observed Data and Computed Results	50
6.6	Part V: Test Conditions and Corrections Agreements	51
6.7	Part VI: Test Methods and Procedures	51
6.8	Part VII: Supporting Data	51
6.9	Part VIII: Graphical Presentation of Back-Pressure Test Results	51
 Part II In-Service and Bench Testing		
3	Guiding Principles	56
3.1	Items on Which Agreement Shall Be Reached	56
3.2	Qualification of Person Conducting the Test	56
3.3	Responsibility of Person Conducting the Test	56
3.4	Test Apparatus	56
3.5	Preliminary Training	56
3.6	Spare Instruments	56
3.7	Calibration of Instruments	56
3.8	Adjustments During Test	57
3.9	Records and Test Results	57
3.10	Measurement Uncertainty	57
4	Instruments and Methods of Measurements	58
4.1	General	58
4.2	Instrumentation	58
4.3	In-Service Testing Procedures	59
4.4	Bench Testing Procedures	63
4.5	Seat Tightness Test	63
5	Computation of Results	64

5.1	Correction of Measured Variables	64
5.2	Review of Instrument Readings	64
5.3	Computation of Operational Characteristics	64
6	Test Summary Report Form	65
6.1	General Instructions	65
6.2	Part I: General Information	65
6.3	Part II: Summary of Results	65
6.4	Part III: Description of Valve Under Test	65
6.5	Part IV: Observed Data and Computed Results	65
6.6	Part V: Contract and Agreed Test Conditions Corrections	65
6.7	Part VI: Test Methods and Procedures	65
6.8	Part VII: Supporting Data	65
 Figures		
1	Typical Curtain Areas of Pressure Relief Valves	7
2	Recommended Arrangements for Testing Nonreclosing Pressure Relief Device Flow Resistance	14
3	Recommended Arrangements for Testing Devices With Atmospheric Back Pressure — Flow-Meter Test Arrangement	17
4	Recommended Internal Contours of Fittings, Adapter, and Reducers Between Test Vessel and Test Device	20
5	Recommended Arrangements for Testing Devices With Atmospheric Back Pressure — Weighed-Condensate Test Arrangement	21
6	Recommended Arrangements for Testing Devices With Atmospheric Back Pressure — Weighed-Water Test Arrangement	21
7	Recommended Discharge Arrangements for Testing Devices With Superimposed Back Pressure	22
8	Recommended Arrangement for Testing Nonreclosing Pressure Relief Devices in Combination With Pressure Relief Valves	22
9	Recommended Discharge Arrangements for Testing Devices With Built-up Back Pressure	27
10	Recommended Arrangements for Conducting Opening Test on Nonreclosing Pressure Relief Devices With Incompressible Fluids	34
11	Recommended Arrangement for Testing Valves With Compressible Fluids	60
12	Recommended Arrangement for Testing Valves With Incompressible Fluids	61
13	Pilot-Operated Pressure Relief Valve Field Test Accessory	62
 Forms		
5.5.1	Pressure Relief Device Tested With Steam and Water — Observed Data and Computed Results — Weighed-Water Method	39
5.5.2	Pressure Relief Device Tested With Steam — Observed Data and Computed Results — Flow-Meter Method	40
5.5.3	Pressure Relief Device Tested With Liquids — Observed Data and Computed Results — Flow-Meter Method	42
5.5.4	Pressure Relief Device Tested With Air or Gas — Observed Data and Computed Results — Flow-Meter Method	43
5.5.5	Pressure Relief Device Tested With Air or Gas — Observed Data and Computed Results — Sonic-Flow Method	45
5.5.6	Pressure Relief Device Tested With Fuel Gas — Observed Data and Computed Results — Flow-Meter Method	46

5.5.7	Nonreclosing Pressure Relief Device Tested With Air — Observed Data and Computed Results — Flow Resistance	48
6.5.1	Pressure and Relief Valve Performance Test Report — Steam	52
6.5.2	Pressure and Relief Valve Performance Test Report — Liquids and Water	53
6.5.3	Pressure and Relief Valve Performance Test Report — Air, Gas, or Fuel Gas	54
6.5.4	Nonreclosing Pressure Relief Device Performance Test Report — Air, Gas, or Fuel Gas	55
Mandatory		
Appendices		
I	SI (Metric) Units and Conversion Factors	67
II	Examples of Determining Flow Rate Uncertainties	70
Nonmandatory		
Appendices		
A	References	75
Tables		
IA	SI (Metric) Units	68
IB	Commonly Used Conversion Factors	69
II-1	Table of Uncertainty Parameters	71
