Fibre optic interconnecting devices and passive components — Connector optical interfaces

Part 3-32: Connector parameters of non-dispersion shifted single mode physically contacting fibres — Angled thermoset epoxy rectangular ferrules
This British Standard is the UK implementation of EN 61755-3-32:2016. It is identical to IEC 61755-3-32:2015. It supersedes DD IEC/PAS 61755-3-32:2007 which is withdrawn.

The UK participation in its preparation was entrusted by Technical Committee GEL/86, Fibre optics, to Subcommittee GEL/86/2, Fibre optic interconnecting devices and passive components.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Fibre optic interconnecting devices and passive components -
Connector optical interfaces - Part 3-32: Connector parameters
of non-dispersion shifted single mode physically contacting fibres
- Angled thermoset epoxy rectangular ferrules
(IEC 61755-3-32:2015)
European foreword

The text of document 86B/3889/FDIS, future edition 1 of IEC 61755-3-32, prepared by SC 86B "Fibre optic interconnecting devices and passive components" of IEC/TC 86 "Fibre optics" was submitted to the IEC-CENELEC parallel vote and approved by CENELEC as EN 61755-3-32:2016.

The following dates are fixed:

- latest date by which the document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2016-09-11
- latest date by which the national standards conflicting with the document have to be withdrawn (dow) 2019-03-11

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC [and/or CEN] shall not be held responsible for identifying any or all such patent rights.

Endorsement notice

The text of the International Standard IEC 61755-3-32:2015 was approved by CENELEC as a European Standard without any modification.

In the official version, for Bibliography, the following notes have to be added for the standards indicated:

- IEC 61753-1 NOTE Harmonized as EN 61753-1.
- IEC 61755-2-1 NOTE Harmonized as EN 61755-2-1.
Normative references to international publications with their corresponding European publications

The following documents, in whole or in part, are normatively referenced in this document and are indispensable for its application. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

NOTE 1 When an International Publication has been modified by common modifications, indicated by (mod), the relevant EN/HD applies.

NOTE 2 Up-to-date information on the latest versions of the European Standards listed in this annex is available here: www.cenelec.eu
