Household range hoods and other cooking fume extractors — Methods for measuring performance

ICS 97.040.20

National foreword

This British Standard is the UK implementation of EN 61591:1997+A11:2014. It is derived from IEC 61591:1997, including amendments 1:2005 and 2:2010. It supersedes BS EN 61591:1997+A2:2011, which will be withdrawn on 11 November 2016.

BSI, as a member of CENELEC, is obliged to publish BS EN 61591:1997+A11:2014 as a British Standard. However, attention is drawn to the fact that the UK committee voted against its approval as a European standard. The main reason for this is that the standard is missing an Annex ZA in order for it to be listed as a harmonized standard. The Annex ZA should list how this standard is intended to support the essential requirements of the eco-design and energy labelling directives.

The start and finish of text introduced or altered by amendment is indicated in the text by tags. Tags indicating changes to IEC text carry the number of the IEC amendment. For example, text altered by IEC amendment 1 is indicated by **A1** **A1**.

Where a common modification has been introduced by CENELEC amendment, the tags carry the number of the amendment. For example, the common modifications introduced by CENELEC amendment A11 are indicated by **C11** **C11**.

The UK participation in its preparation was entrusted to Technical Committee CPL/59, Performance of household electric appliances.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 November 1997

This European Standard was approved by CENELEC on 1997-07-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
