Industrial communication networks — Installation of communication networks in industrial premises

bsi.

...making excellence a habit.™

This is a preview of "BS EN 61918:2013". [Click here to purchase the full version from the ANSI store.](#)

This British Standard is the UK implementation of EN 61918:2013, incorporating corrigendum May 2014. It is derived from IEC 61918:2013. It supersedes BS EN 61918:2008, which is withdrawn.

CENELEC corrigendum May 2014 corrects the EN Foreword and Introduction.

The CENELEC common modifications have been implemented at the appropriate places in the text and are indicated by tags **[C]** **[C]**.

The UK participation in its preparation was entrusted to Technical Committee AMT/7, Industrial communications: process measurement and control, including fieldbus.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

English version

**Industrial communication networks -
Installation of communication networks in industrial premises
(IEC 61918:2013, modified)**

Réseaux de communication industriels -
Installation de réseaux de communication
dans des locaux industriels
(CEI 61918:2013, modifiée)

Industrielle Kommunikationsnetze –
Installation von Kommunikationsnetzen in
Industrieanlagen
(IEC 61918:2013, modifiziert)

This European Standard was approved by CENELEC on 2013-10-02. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

Foreword

The text of document 65C/737/FDIS, future edition 3 of IEC 61918, prepared by SC 65C, "Industrial networks", of IEC/TC 65, "Industrial-process measurement, control and automation" was submitted to the IEC-CENELEC parallel vote and approved by CENELEC as EN 61918:2013.

A draft amendment, which covers common modifications to IEC 61918:2013, was prepared by CLC/TC 65X "Industrial-process measurement, control and automation" and approved by CENELEC.

The following dates are fixed:

- latest date by which this document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2014-10-02
- latest date by which the national standards conflicting with this document have to be withdrawn (dow) 2016-10-02

This document supersedes EN 61918:2008.

EN 61918:2013 includes the following significant technical changes with respect to EN 61918:2008:

- some terms and abbreviated terms have been added to Clause 3;
- Subclauses 4.4.3.4.1, 4.4.7.2.1, and 4.4.7.3 have been updated;
- Subclause 5.7.4.3 has been updated as result of the revision of the installation profiles;
- Subclause 6.2.3.1 has been updated;
- Subclause 8.1 has been updated;
- Figure 2, Figure 13, Figure 15, Figure 29, Figure H.1, Table 3, Table 6, Table 7, Table 14, Table B.3 and Table B.5 have been updated;
- a new Figure 35 has been added;
- a new Table 10 has been added;
- Annex D and Annex M have been extended to cover additional communication profile families;
- Annex F has been extended to cover conductor sizes in electrical cables;
- Annex H has been made normative; some common requirements are extended as result of the revision of the installation profiles;
- a new informative Annex O has been added.

This standard is to be used in conjunction with the EN 61784-5 series with regard to the installation of communication profiles (CPs). This standard is to be used in conjunction with 50174 series, in particular with EN 50174-2, with regard to the installation of generic cabling.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC [and/or CEN] shall not be held responsible for identifying any or all such patent rights.

Annex ZA (normative)

Normative references to international publications with their corresponding European publications

The following documents, in whole or in part, are normatively referenced in this document and are indispensable for its application. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

NOTE When an international publication has been modified by common modifications, indicated by (mod), the relevant EN/HD applies.
