This Published Document is the UK implementation of IEC/TR 61641:2014.

The UK participation in its preparation was entrusted by Technical Committee PEL/121, Switchgear and Controlgear and their assemblies for low voltage, to Subcommittee PEL/121/2, Low voltage switchgear and controlgear assemblies.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

## CONTENTS

FOREWORD .....	3
INTRODUCTION .....	5
1 Scope .....	6
2 Normative references .....	6
3 Terms and definitions .....	7
4 Classification of low-voltage switchgear and controlgear assemblies .....	9
4.1 Classification with regard to the protection characteristic .....	9
4.2 Classification with regard to persons who have access .....	9
5 ASSEMBLY characteristics .....	10
6 Requirements and tests for an arc ignition protected zone .....	10
6.1 Constructional requirements of an arc ignition protected zone .....	10
6.2 Dielectric test of arc ignition protected zones .....	11
6.3 IP test of arc ignition protected zones .....	11
7 Selection of test specimen and validity of tests for similar designs (possibilities for derivation) .....	11
8 Testing – Arc fault tests .....	12
8.1 General .....	12
8.2 Voltage .....	12
8.3 Current .....	13
8.4 Frequency .....	13
8.5 Duration of the test .....	13
8.6 Test procedure .....	13
8.6.1 Supply circuit .....	13
8.6.2 Arc initiation .....	13
8.6.3 Repetition of the test .....	15
8.6.4 Indicators (for observing the thermal effects of gases) .....	15
8.7 Assessment of the test .....	16
9 Test report .....	16
Annex A (informative) User guide to arc fault mitigation .....	19
A.1 General .....	19
A.2 Arc ignition protected zones .....	20
A.3 Items for classification .....	20
A.4 Use of this technical report .....	21
Annex B (informative) List of notes concerning certain countries .....	22
Bibliography .....	23
Figure 1 – Mounting frame for indicators .....	18
Figure 2 – Examples of installation positions of the indicators .....	18
Table 1 – Sizes of the copper ignition wire without current-limiting protection device .....	14
Table 2 – Sizes of the copper ignition wire with current-limiting protection device .....	14
Table A.1 – Options for classification .....	20
