## National foreword

This British Standard is the UK implementation of EN 573-3:2019+A1:2022. It supersedes BS EN 573-3:2019, which is withdrawn.

The start and finish of text introduced or altered by amendment is indicated in the text by tags. Tags indicating changes to CEN text carry the number of the CEN amendment. For example, text altered by CEN amendment A1 is indicated by A1 A1.

The UK participation in its preparation was entrusted to Technical Committee NFE/35, Light metals and their alloys.

A list of organizations represented on this committee can be obtained on request to its committee manager.

### Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.

This publication is provided as is, and is to be used at the recipient's own risk.

The recipient is advised to consider seeking professional guidance with respect to its use of this publication.

This publication is not intended to constitute a contract. Users are responsible for its correct application.

EUROPÄISCHE NORM

June 2022

ICS 77.120.10; 77.150.10

Supersedes EN 573-3:2019

English Version

## Aluminium and aluminium alloys - Chemical composition and form of wrought products - Part 3: Chemical composition and form of products

Aluminium et alliages d'aluminium - Composition  
chimique et forme des produits corroyés - Partie 3 :  
Composition chimique et forme des produits

Aluminium und Aluminiumlegierungen - Chemische  
Zusammensetzung und Form von Halbzeug - Teil 3:  
Chemische Zusammensetzung und Erzeugnisformen

This European Standard was approved by CEN on 7 July 2019 and includes Amendment 1 approved by CEN on 31 January 2022.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

## European foreword

This document (EN 573-3:2019+A1:2022) has been prepared by Technical Committee CEN/TC 132 "Aluminium and aluminium alloys", the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by December 2022, and conflicting national standards shall be withdrawn at the latest by December 2022.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

This document supersedes EN 573-3:2019.

This document includes Amendment 1 approved by CEN on 31 January 2022.

The start and finish of text introduced or altered by amendment is indicated in the text by tags A1 A1.

Within its programme of work, Technical Committee CEN/TC 132 entrusted CEN/TC 132/WG 5 "Extruded and drawn products" to revise EN 573-3:2013.

CEN/TC 132 has decided to revise this document as follows:

- addition of the alloy EN AW-2016 in Table 2 and A.2;
- addition of the alloy EN AW-4025 in Tables 4 and A.4;
- addition of the alloy EN AW-6050 in Tables 6 and A.6;
- addition of the alloy EN AW-5018B in Tables 5 and A.5;
- addition of the alloy EN AW-8026 in Table 8 and A.8;
- correction of the alloy EN AW-5449 in Table 5;
- correction of the alloy EN AW-6064A in Table 6;
- modification of the order of alloys to conform with Aluminium Association System.

EN 573 comprises the following parts under the general title *Aluminium and aluminium alloys — Chemical composition and form of wrought products*:

- *Part 1: Numerical designation system;*
- *Part 2: Chemical symbol based designation system;*
- *Part 3: Chemical composition and form of products;*
- *Part 4: Forms of products;*
- *Part 5: Codification of standardized wrought products.*

This is a preview of "BS EN 573-3:2019+A1:...". [Click here to purchase the full version from the ANSI store.](#)

CEN/TC 132 affirms its policy that if a patentee refuses to grant licenses on standardized products under reasonable and not discriminatory conditions, this product will be removed from the corresponding document.

Any feedback and questions on this document should be directed to the users' national standards body. A complete listing of these bodies can be found on the CEN website.

According to the CEN-CENELEC Internal Regulations, the national standards organisations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

## 1 Scope

This document specifies the chemical composition limits of wrought aluminium and wrought aluminium alloys and form of products.

NOTE The chemical composition limits of aluminium and aluminium alloys specified herein are completely identical with those registered with the Aluminium Association, 1525, Wilson Boulevard, Suite 600, Arlington, VA 22209, USA, for the corresponding alloys.

## 2 Normative references

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 485-2, *Aluminium and aluminium alloys — Sheet, strip and plate – Part 2: Mechanical properties*

EN 541, *Aluminium and aluminium alloys - Rolled products for cans, closures and lids - Specifications*

EN 546-2, *Aluminium and aluminium alloys - Foil - Part 2: Mechanical properties*

EN 570, *Aluminium and aluminium alloys - Impact extrusion slugs obtained from wrought products - Specification*

EN 573-2, *Aluminium and aluminium alloys - Chemical composition and form of wrought products - Part 2: Chemical symbol based designation system*

EN 586-2, *Aluminium and aluminium alloys - Forgings - Part 2: Mechanical properties and additional property requirements*

EN 602, *Aluminium and aluminium alloys - Wrought products - Chemical composition of semi-finished products used for the fabrication of articles for use in contact with foodstuff*

EN 603-2, *Aluminium and aluminium alloys - Wrought forging stock - Part 2: Mechanical properties*

EN 683-2, *Aluminium and aluminium alloys - Finstock - Part 2: Mechanical properties*

EN 754-2, *Aluminium and aluminium alloys - Cold drawn rod/bar and tube - Part 2: Mechanical properties*

EN 755-2, *Aluminium and aluminium alloys - Extruded rod/bar, tube and profiles - Part 2: Mechanical properties*

EN 1301-2, *Aluminium and aluminium alloys - Drawn wire - Part 2: Mechanical properties*

EN 1592-2, *Aluminium and aluminium alloys - HF seam welded tubes - Part 2: Mechanical properties*

EN 1715-2, *Aluminium and aluminium alloys - Drawing stock - Part 2: Specific requirements for electrical applications*

EN 1715-3, *Aluminium and aluminium alloys - Drawing stock - Part 3: Specific requirements for mechanical uses (excluding welding)*
