National foreword

This British Standard is the UK implementation of EN ISO 7010:2020+A3:2022. It is identical to ISO 7010:2019 incorporating amendments 1:2020, 2:2020, and 3:2021. It supersedes BS EN ISO 7010:2020+A1:2020, which is withdrawn.

ISO 7010:2019 includes water safety signs from ISO 20712-1:2008, which is withdrawn. BS ISO 20712-1:2008 with its national annex is withdrawn.

The start and finish of text introduced or altered by amendment is indicated in the text by tags. Tags indicating changes to ISO text carry the number of the ISO amendment. For example, text altered by ISO amendment 1 is indicated by A1 A1.

The UK participation in its preparation was entrusted to Technical Committee PH/8/1, Graphical Symbols - Safety Signs.

A list of organizations represented on this committee can be obtained on request to its committee manager.

National Annex NA was added by PH/8/1 to provide registered safety signs that were originally in BS 5499-5 and BS 5499-11 (which have been withdrawn) and also those additional safety signs that have subsequently been registered by PH/8/1 but not included in ISO 7010:2019.

National Annex NA includes the national annex to BS EN ISO 7010:2012+A7:2017 and the national annex to BS ISO 20712-1:2008.

National Annex NA will be revised regularly to include safety signs as they are standardized by ISO and BSI.

All safety signs within National Annex NA conform to the design principles given in BS ISO 3864-1:2011 and the design criteria given in BS ISO 3864-3:2012, as well as using the ISO 7010 template available at <http://www.iso.org/tc145/sc2>. The colorimetric and photometric properties of safety sign materials are given in BS ISO 3864-4:2011.

Guidance on the application of safety signs is given in BS 5499-4:2013, BS 5499-10:2014, BS 8569:2014 and BS ISO 20712-3:2020. The use of safety signs does not replace the need for proper working methods and for instruction and training in accident prevention and the actions to be taken in the event of an emergency. BS ISO 16069:2017 and BS ISO 23601:2020 include the standardized safety signs showing how they are used. Other standards are being developed to demonstrate use.
