NOTICE

Consumer Electronics Association (CEA®) Standards, Bulletins and other technical publications are designed to serve the public interest through eliminating misunderstandings between manufacturers and purchasers, facilitating interchangeability and improvement of products, and assisting the purchaser in selecting and obtaining with minimum delay the proper product for his particular need. Existence of such Standards, Bulletins and other technical publications shall not in any respect preclude any member or nonmember of CEA from manufacturing or selling products not conforming to such Standards, Bulletins or other technical publications, nor shall the existence of such Standards, Bulletins and other technical publications preclude their voluntary use by those other than CEA members, whether the standard is to be used either domestically or internationally.

Standards, Bulletins and other technical publications are adopted by CEA in accordance with the American National Standards Institute (ANSI) patent policy. By such action, CEA does not assume any liability to any patent owner, nor does it assume any obligation whatever to parties adopting the Standard, Bulletin or other technical publication.

Note: The user's attention is called to the possibility that compliance with this standard may require use of an invention covered by patent rights.

By publication of this standard, no position is taken with respect to the validity of this claim or of any patent rights in connection therewith. The patent holder has, however, filed a statement of willingness to grant a license under these rights on reasonable and nondiscriminatory terms and conditions to applicants desiring to obtain such a license. Details may be obtained from the publisher.

This CEA Standard is considered to have International Standardization implication, but the International Electrotechnical Commission activity has not progressed to the point where a valid comparison between the CEA Standard and the IEC document can be made.

This Standard does not purport to address all safety problems associated with its use or all applicable regulatory requirements. It is the responsibility of the user of this Standard to establish appropriate safety and health practices and to determine the applicability of regulatory limitations before its use.

This document is copyrighted by the Consumer Electronics Association (CEA®) and may not be reproduced, in whole or part, without written permission. Federal copyright law prohibits unauthorized reproduction of this document by any means. Organizations may obtain permission to reproduce a limited number of copies by entering into a license agreement. Requests to reproduce text, data, charts, figures or other material should be made to CEA.

FOREWORD

This standard was developed by the Consumer Electronics Association (CEA) R6 Mobile Electronics Committee.

CEA-2017-A includes significant changes from *ANSI/CEA-2017*. Connectors and devices implemented using *CEA-2017-A* may not be compatible with those that use *ANSI/CEA-2017*.

COMMON INTERCONNECTION FOR PORTABLE MEDIA PLAYERS

1 Scope

This standard defines electrical and mechanical properties for a connector that will pass audio, high definition video, high speed/superspeed Universal Serial Bus (USB) and associated metadata signals, control signals, and power between portable electronic devices and in-home and in-vehicle audio/video systems.

CEA-2017-A may not be backward compatible with CEA-2017.

2.1 Normative References

The following references contain provisions that, through reference in this text, constitute normative provisions of this standard. At the time of publication, the edition indicated was valid. All standards are subject to revision, and parties to agreements based on this standard are encouraged to investigate the possibility of applying the most recent edition of the standard indicated below.

2.1.1 Normative Reference List

CEA-CPEB-6-A, *Preferred Voltage and Impedance Values for the Interconnection of Audio Products* (reaffirmed January, 2004)

Directive 2002/95/EC of the European Parliament and of the Council (January 27, 2003)

EIA/ECA-364-1000.01, *Environmental Test Methodology for Assessing the Performance of Electrical Connectors and Sockets Used in Controlled Environment Applications*

High-Definition Multimedia Interface (HDMI) Specification Version 1.3a (November 10, 2006)
Supplement 1, Consumer Electronics Control (CEC)

UL-94, *Tests for Flammability of Plastic Materials for Parts in Devices and Appliances* (5th Edition, June 2009)

USB-IF Media Transfer Protocol Specification

Universal Serial Bus 3.0 Specification, Revision 1.0 (November 12, 2008)

Universal Serial Bus Specification, USB On-The-Go Supplement, Revision 1.0a

VESA DisplayPort Standard, Version 1, Revision 1a (January 11, 2008)

VESA DisplayPort Interoperability Guideline, Version 1.1a (February 5, 2009)
