NOTICE

Consumer Electronics Association (CEA[®]) Standards, Bulletins and other technical publications are designed to serve the public interest through eliminating misunderstandings between manufacturers and purchasers, facilitating interchangeability and improvement of products, and assisting the purchaser in selecting and obtaining with minimum delay the proper product for his particular need. Existence of such Standards, Bulletins and other technical publications shall not in any respect preclude any member or nonmember of CEA from manufacturing or selling products not conforming to such Standards, Bulletins or other technical publications, nor shall the existence of such Standards, Bulletins and other technical publications preclude their voluntary use by those other than CEA members, whether the standard is to be used either domestically or internationally.

Standards, Bulletins and other technical publications are adopted by CEA in accordance with the American National Standards Institute (ANSI) patent policy. By such action, CEA does not assume any liability to any patent owner, nor does it assume any obligation whatever to parties adopting the Standard, Bulletin or other technical publication.

This document does not purport to address all safety problems associated with its use or all applicable regulatory requirements. It is the responsibility of the user of this document to establish appropriate safety and health practices and to determine the applicability of regulatory limitations before its use.

This document is copyrighted by the Consumer Electronics Association (CEA[®]) and may not be reproduced, in whole or part, without written permission. Federal copyright law prohibits unauthorized reproduction of this document by any means. Organizations may obtain permission to reproduce a limited number of copies by entering into a license agreement. Requests to reproduce text, data, charts, figures or other material should be made to CEA.

FOREWORD

This standard was developed by the Consumer Electronics Association's R7.8 Modular Communications Interface for Energy Management subcommittee.

CONTENTS

1 Scope.....	1
2 References.....	1
2.1 Normative References.....	1
2.1.1 Normative Reference List	1
2.1.2 Normative Reference Acquisition	1
2.2 Compliance Notation.....	1
2.3 Definitions	1
2.4 Symbols and Abbreviations	2
3 Thermostat Message Set.....	2
3.1 Required Command Support.....	2
3.2 Operational Mode Commands.....	3
3.2.1 Thermostat Mode.....	3
3.2.2 Fan Mode	4
3.2.3 Hold Mode.....	5
3.2.4 Curtailment Mode.....	7
3.2.5 Communications Timeout.....	10
3.2.6 Humidity Control.....	11
3.2.7 Away Mode	12
3.3 Status Commands	14
3.3.1 Thermostat Status	14
3.3.2 UCM Status	19
3.4 Homeowner Settings	20
3.4.1 TOD Schedule	20
3.4.2 TOD Recovery	28
3.4.3 Display Parameters	29
3.4.4 Backlight Parameters	31
3.4.5 Filter Change Reminder	32
3.4.6 Reset Filter Reminder.....	33
3.4.7 Keypad Lockout	34
3.4.8 Reset Homeowner Settings	35
3.4.9 Staging Delay	36
3.4.10 Away Mode Setpoints.....	37
3.5 Installer Settings.....	38
3.5.1 Anticipation	38
3.5.2 Economy/Comfort Settings	39
3.5.3 Set Point Swing.....	41
3.5.4 Compressor Lockout.....	42
3.5.5 System Configuration	43
3.5.6 Timed Hold Mode.....	45
3.5.7 Cooling Fan Delay.....	46
3.5.8 Limited Temperature Range	47
3.6 Utility Settings.....	48
3.6.1 Fault Contact Settings.....	48
3.6.2 Utility Configuration Settings	50
3.7 Feature Settings.....	51
3.7.1 Thermostat Features	51

Modular Communications Interface for Thermostat

1 Scope

This specification is an extension of the ANSI/CEA-2045 Modular Communications Interface (MCI) for Energy Management standard. This specification supports the following features:

- Cycling based control
- Temperature based control
- Programming and reading of thermostat configuration items

2 References

2.1 Normative References

The following standards contain provisions that, through reference in this text, constitute normative provisions of this standard. At the time of publication the editions indicated were valid. All standards are subject to revision. Users of this standard are cautioned that newer editions of the referenced standards might or might not be compatible.

2.1.1 Normative Reference List

1. ANSI/CEA-2045, Modular Communications Interface for Energy Management, February 2013

2.1.2 Normative Reference Acquisition

1. Techstreet, 3916 Ranchero Drive, Ann Arbor, MI, USA 48108; Phone 800-699-9277; Fax 734-780-2046; Internet <http://www.techstreet.com>; Email techstreet.service@thomsonreuters.com

2.2 Compliance Notation

As used in this document “shall” and “must” denote mandatory provisions of the standard. “Should” denotes a provision that is recommended but not mandatory. “May” denotes a feature whose presence does not preclude compliance, and implementation of which is optional. “Optional” denotes items that may or may not be present in a compliant device.

2.3 Definitions

Big-Endian	Specifies that the transmission byte order of a data stream is MSB first
LSB	Least Significant Byte e.g. for the value 0x12345678, 0x78 is the LSB
LSN	Bits 2^3 through 2^0 e.g. the LSN of 0xAB is 0xB
