2.1 Scope	1
2.2 Purpose	1
3 Definitions.....	2
4 General design information	5
4.1 Design types and descriptions.....	5
4.2 Installation and mounting of NGV fuel containers	6
4.3 Labeling information	6
5 Qualifications of inspector	7
5.1 Container and installation knowledge.....	7
5.2 Resources	7
5.3 Inspection knowledge	7
5.4 Gas and technical knowledge.....	8
5.5 Literacy.....	8
5.6 Supervisory ability	8
6 Inspection equipment	8
6.1 Inspection of mounting	8
6.2 Inspection of container	9
7 Inspection and examination.....	11
7.1 Inspection interval.....	11
7.2 Conditions requiring immediate inspection	11
7.3 Preparation for inspection—all types.....	11
7.4 Examination of installation—all container types	12
7.5 Container examination—all container types.....	14
7.6 Additional inspection of metal containers—Type 1 and metallic portions of Type 2.....	16
7.7 Additional inspection composite containers (Types 2, 3, and 4)	17
7.8 Examination of valves and relief devices—all container types	20
7.9 Labeling—all container types	21
7.10 Inspection record/check list—all container types.....	21
7.11 Final disposition—all container types	21
7.12 Final disposition—all equipment.....	22
8 Alternatives to visual inspection (nondestructive inspection)	22
8.1 In situ acoustic emission testing.....	23
8.2 Traditional nondestructive testing methods.....	23
9 Disposition of condemned containers	23
