

Contents	Page
1 Introduction.....	1
2 Scope	1
3 Manufacture, properties, and uses	1
3.1 Manufacture.....	1
3.2 Properties	2
3.3 Commercial applications	4
4 General regulations	5
4.1 Jurisdiction of regulatory organizations	5
4.2 Classification of hydrogen sulfide	6
4.3 Container qualifications	6
5 Cylinders	7
5.1 Description.....	7
5.2 Fabrication.....	7
5.3 Marking and labeling	7
5.4 Charging	7
5.5 Shipping and handling	8
5.6 Withdrawing contents	8
5.7 Storage	8
6 Cargo trailers.....	9
6.1 Description—capacity	9
6.2 Fabrication.....	9
6.3 Charging	9
6.4 Shipping and receiving regulations.....	9
6.5 Handling and unloading.....	10
6.6 Preparing cargo tank for return.....	10
7 Single unit tank cars	10
7.1 Description.....	10
7.2 Fabrication details	11
7.3 Charging	11
7.4 Shipping and receiving regulations.....	11
7.5 Handling and unloading.....	11
7.6 Preparing tank cars for return.....	11
8 Unloading methods and systems for highway and single unit tank cars	12
8.1 General.....	12
8.2 Methods.....	12
8.3 Other required or recommended equipment	13
8.4 Unloading procedures	14
9 Multi-unit tank car and truck shipments	15
9.1 Description.....	15
9.2 Fabrication.....	15
9.3 Marking, labeling, and placarding.....	16
9.4 Charging—filling density	16
9.5 Shipping.....	16
9.6 Handling	17
9.7 Storage.....	17
9.8 Withdrawing hydrogen sulfide	17
10 Piping and equipment.....	17
10.1 Introduction.....	17
10.2 Piping.....	18

11 Hazards and safety	18
11.1 Introduction.....	18
11.2 Flammability	18
11.3 Toxicity	18
11.4 Cryogenic hazards.....	23
11.5 Corrosion hazards	23
11.6 General rules for using hydrogen sulfide gas safely.....	23
11.7 Handling of emergencies.....	24
12 References	26
13 Additional references.....	27
