

Contents	Pages
1 Introduction.....	1
2 Scope	1
3 Definitions.....	1
4 Validation protocol.....	2
4.1 General.....	2
4.2 Purpose/scope and study objectives	3
4.3 Definitions.....	3
4.4 Personnel qualifications and responsibilities.....	3
4.5 Equipment, materials, and supplies	3
4.6 Test methods.....	3
4.7 Acceptance criteria	3
4.8 Standard operating procedures	3
4.9 Study details	3
4.10 Validation data.....	3
4.11 Final report requirements	3
5 Validation gases	3
5.1 Challenge gases.....	3
5.2 Assay.....	4
5.3 Identity.....	5
6 Validation study	5
6.1 General.....	5
6.2 Instrument installation.....	5
6.3 Instrument calibration	5
6.4 Instrument use.....	6
6.5 Collection of sample data	6
7 Method evaluation	6
7.1 Analytical method validation characteristics	6
7.2 Accuracy.....	7
7.3 Precision.....	7
7.4 Specificity	8
7.5 Limit of detection	8
7.6 Limit of quantitation	9
7.7 Linearity and range.....	9
8 Acceptance criteria.....	10
8.1 General.....	10
8.2 Accuracy.....	10
8.3 Precision.....	10
8.4 Specificity	10
8.5 Limit of detection and limit of quantitation	10
8.6 Linearity and range.....	10
9 Final report	10
10 Record retention.....	11
11 Suitability under actual conditions of use	11

12	Gas chromatograph system suitability	11
12.1	General.....	11
12.2	Resolution.....	11
12.3	Precision.....	12
12.4	Tailing factor.....	12
13	References	13
14	Additional information.....	13
