Revisions of this Standard will be made by issuing revised or additional pages bearing their date of issue. A UL Standard is current only if it incorporates the most recently adopted revisions, all of which are itemized on the transmittal notice that accompanies the latest set of revised requirements. Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <http://csds.ul.com>.

The most recent designation of ANSI/UL 60745-2-21 as an American National Standard (ANSI) occurred on March 13, 2009.

This ANSI/UL Standard for Safety, which consists of the First edition with revisions through March 13, 2009, is under continuous maintenance, whereby each revision is ANSI approved upon publication.
