

**INTERNATIONAL ASSOCIATION OF PLUMBING
AND MECHANICAL OFFICIALS**

IAPMO GUIDE CRITERIA

FOR

**TUB / SHOWER ENCLOSURES WITH FACTORY-INSTALLED
FITTINGS, SHOWER PANEL SHOWER DOOR,
AND THRESHOLD ASSEMBLIES**

IGC 154-2006a

1. PURPOSE

- 1.1** The purpose of this standard is to establish a generally acceptable standard for tub / shower enclosures with factory-installed fittings, factory-formed and factory-plumbed shower threshold assembly structures designed to be overlaid with tiles, or shower panel assemblies for new and retrofit installations. Assemblies can encompass components such as supply connectors, piping, shower heads, body sprays and shower door enclosure systems.
- 1.2** Its purpose is to serve as a guide for producers, distributors, architects, engineers, contractors, installers, inspectors and users; and to promote understanding regarding materials, manufacture and installation.
- 1.3** The provisions of this standard are not intended to prevent the use of any alternate material, or method of construction, provided any such alternate meets or exceeds the intent of this standard.

2. SCOPE

- 2.1** This standard applies to shower panel assemblies, factory-formed and/or factory-plumbed shower threshold assemblies and factory-plumbed shower door assemblies and covers referenced standards, definitions, general requirements, performance tests, and marking and identification for such products.
- 2.2** Certain sections or requirements may not be applicable to all panels and assemblies covered under this standard.

3. REFERENCED STANDARDS

- 3.1** All standards referenced here shall be the current edition of that standard.
