FOR**

**WHIRLPOOL BATHTUB WITH PRESSURE
SEALED DOOR AND OPTIONAL RESERVOIR/WASTE TANK(S)**

IAPMO IGC 260-2009

1. PURPOSE

- 1.1** The purpose of this standard is to establish a generally acceptable standard for whirlpool bathtub with pressure sealed door and optional reservoir/waste tank(s). Its purpose is to serve as a guide for producers, distributors, architects, engineers, contractors, installers, inspectors and users; to promote understanding regarding materials, manufacture and installation; and to provide for identifying whirlpool bathtub with pressure sealed door and optional reservoir/waste tank(s) that conform to this standard.
- 1.2** The provisions of this standard are not intended to prevent the use of any alternate materials or method of construction, provided any such alternate meets the intent and requirements of this document and changes are amended to this standard.

2. SCOPE

- 2.1** This standard covers minimum requirements for materials in the construction of whirlpool bathtub with pressure sealed doors and optional reservoir/waste tank(s), and to prescribe minimum test requirements for the performance of these devices, general requirements and methods of marking and identification.

3. REFERENCED STANDARDS

- 3.1** All standards referenced herein shall be the current edition of that standard.
