Trap Primers for Fill Valves and Flushometer Valves

1 Scope

- 1.1 This Standard covers trap primers for fill valves and flushometer valves and trap primer adapters and specifies requirements for materials, physical characteristics, performance testing, and markings.
- 1.2 The requirements of this Standard are not intended to prevent the use of alternate materials or methods of construction provided such alternates meet the intent of this Standard.
- 1.3 Proposals for amendments to this Standard will be processed in accordance with the standards writing procedures of IAPMO.
- 1.4 The user's attention is called to the possibility that compliance with this Standard may require use of an invention covered by patent rights. By publication of this Standard, no position is taken with respect to the validity of any such claim(s) or of any patent rights in connection therewith. If a patent holder has filed a statement of willingness to grant a license under these rights on reasonable and nondiscriminatory terms and conditions to applicants desiring to obtain such a license, then details can be obtained from IAPMO.

2 Reference Publications

This Standard refers to the following publication, and where such reference is made, it shall be to the current edition of that publication, including all amendments published thereto.

ANSI/SAE J512 Automotive Tube Fittings

3 Definitions and Abbreviations

3.1 Definitions

The following definitions shall apply in this Standard:

Priming tube — the tube that directs water from the fill valve refill tube or the flushometer valve tailpiece to a trap.

Tailpiece — the tube that connects the flushometer valve and the plumbing fixture (e.g., urinal or water closet).
