IAPMO TS 11-05

1. PURPOSE

- 1.1** The purpose of this standard is to establish an acceptable standard for minimum health and safety and for the manufacture of non-metallic shower receptors, shower stalls, lavatories, sinks, bathtubs and combination waste holding tanks and shower receptor units. Its purpose is also to serve as a guide for producers, distributors, designers, engineers, installers, inspectors, and users; to promote understanding regarding materials, manufacture and installation; and to provide for identification of products manufactured under this standard.
- 1.2** The provisions of this standard are not intended to prevent the use of any alternate material or method of construction provided any such alternate is at least the equivalent of this standard.

2. SCOPE

- 2.1** This Standard covers the physical requirements and tests for performance and durability, together with methods of marking and identification.
