PREFACE

Introduction

Code officials have recognized the need for consistent and uniform zoning ordinances. The *International Zoning Code*, in this second edition, is designed to meet this need through model code regulations that contain clear and specific zoning requirements.

This 2000 edition is fully compatible with all of the International Codes, including the *International Building Code*, *International Fire Code*, *International Residential Code*, *International Mechanical Code*, *International Plumbing Code*, *International Fuel Gas Code*, *International Energy Conservation Code*, *International Property Maintenance Code*, *International Private Sewage Disposal Code* and the *ICC Electrical Code*.

The *International Zoning Code* provides many benefits, among which is the model code development process that offers an international forum for code officials and other interested parties to discuss performance and prescriptive code requirements. This forum provides an excellent arena to debate proposed revisions. This model code also encourages international consistency in the application of provisions.

Development

The first draft of the *International Zoning Code* was prepared in 1996 by a development committee appointed by and consisting of representatives of BOCA, ICBO and SBCCI. The intent was to draft a comprehensive set of zoning regulations for jurisdictions that have a need for a zoning ordinance and desire that it be compatible with the other model codes adopted by said jurisdictions.

The 2000 edition of the *International Zoning Code* was developed by utilizing the formal ICC Code Development Process for four successive annual code change cycles. During each cycle, public hearings were held to consider proposed changes and final actions were taken at the respective Annual Business Meetings of the three model code organizations, in conjunction with hearings on proposed changes to other International Codes and in accordance with ICC Development Procedures.

Adoption

The *International Zoning Code* is available for adoption and use by jurisdictions internationally. Its use within a governmental jurisdiction is intended to be accomplished through adoption by reference in accordance with proceedings establishing the jurisdiction's laws. At the time of adoption, jurisdictions should insert the appropriate information in provisions requiring specific local information, such as the name of the adopting jurisdiction. These locations are shown in bracketed words in small capital letters in the sample adoption ordinance. The sample adoption ordinance on page v addresses several key elements of a code adoption ordinance, including the information required for insertion into the code text.

Each community that desires to use this document should evaluate this document thoroughly in regards to their own state's enabling legislation. It should also be noted that any penalty provisions contained in state legislation may be applied.

Maintenance

The *International Zoning Code* is kept up to date through the review of proposed changes submitted by code enforcement officials, industry representatives, design professionals and other interested parties. Proposed changes are carefully considered through an open code development process in which all interested and affected parties may participate.

For more information regarding the code development process, contact BOCA, 4051 West Flossmoor Road, Country Club Hills, Illinois 60478-5795; ICBO, 5360 Workman Mill Road, Whittier, California 90601-2298; or SBCCI, 900 Montclair Road, Birmingham, Alabama 35213-1206.

While the development procedure of the *International Zoning Code* ensures the highest degree of care, BOCA, ICBO, SBCCI, their members and those participating in the development of this code do not accept any liability resulting from compliance or non-compliance with the provisions given herein, for any restrictions imposed on materials or processes, or for the completeness of the text. BOCA, ICBO and SBCCI do not have power or authority to police or enforce compliance with the contents of this code. Only the governmental body that enacts the code into law has such authority.

Marginal Markings

Solid vertical lines in the margins within the body of the code indicate a technical change from the requirements of the 1998 edition, except for minor editorial changes. Deletion indicators (➡) are provided in the margin where a paragraph or item has been deleted, if the deletion resulted in a technical change of requirements.

CHAPTER 1

ADMINISTRATION

SECTION 101 GENERAL

101.1 Title. These regulations shall be known as the *Zoning Code* of [NAME OF JURISDICTION], hereinafter referred to as “this code.”

101.2 Intent. The purpose of this code is to safeguard the health, property and public welfare by controlling the design, location, use or occupancy of all buildings and structures through the regulated and orderly development of land and land uses within this jurisdiction.

101.3 Scope. The provisions of this code shall apply to the construction, addition, alteration, moving, repair and use of any building, structure, parcel of land or sign within a jurisdiction, except work located primarily in a public way, public utility towers and poles, and public utilities unless specifically mentioned in this code.

Where, in any specific case, different sections of this code specify different requirements, the more restrictive shall govern. Where there is conflict between a general requirement and a specific requirement, the specific requirement shall be applicable.

In fulfilling these purposes, this ordinance is intended to benefit the public as a whole and not any specific person or class of persons. Although, through the implementation, administration and enforcement of this code, benefits and detriments will be enjoyed or suffered by specific individuals, such is merely a byproduct of the overall benefit to the whole community. Therefore, unintentional breaches of the obligations of administration and enforcement imposed on the jurisdiction hereby shall not be enforceable in tort.

If any portion of this code is held invalid for any reason, the remaining herein shall not be affected.

SECTION 102 FEES

102.1 Fees. A fee for services shall be charged. All fees shall be set by the jurisdiction and schedules shall be available at the office of the code official.

SECTION 103 EXISTING BUILDINGS AND USES

103.1 General. Lawfully established buildings and uses in existence at the time of the adoption of this code shall be permitted to have their existing use or occupancy continued, provided such continued use is not dangerous to life.

103.2 Additions, alterations or repairs. Additions, alterations or repairs shall be permitted to be made to any building or use without requiring the existing building or use to comply with the requirements of this code, provided the addition, alter-

ation or repair conforms to that required for a new building or use.

103.3 Maintenance. All buildings or uses, both existing and new, and all parts thereof, shall be maintained. The owner or designated agent shall be responsible for the maintenance of buildings and parcels of land. To determine compliance with this section, the code official shall be permitted to cause any structure or use to be inspected.

103.4 Moved and temporary buildings, structures, and uses. Buildings or structures moved into or within the jurisdictions shall comply with the provisions of this code for new buildings and structures.

Temporary buildings, structures and uses such as reviewing stands and other miscellaneous structures, sheds, canopies or fences used for the protection of the public shall be permitted to be erected, provided a special approval is received from the code official for a limited period of time. Temporary buildings or structures shall be completely removed upon the expiration of the time limit stated in the permit.

103.5 Illegal uses. Uses that were illegally established prior to the adoption of this code shall remain illegal.

SECTION 104 DUTIES AND POWERS OF THE ZONING CODE OFFICIAL

104.1 General. This section establishes the duties and responsibilities for the zoning code official and other officials and agencies, with respect to the administration of this code. The zoning code official and/or designee shall be referred to hereafter as “the code official.”

104.2 Deputies. The code official may appoint such number of technical officers and other employees as shall be authorized from time to time. The code official shall be permitted to deputize such employees as may be necessary to carry out the functions of this code.

104.3 Reviews and approvals. The code official shall be authorized to undertake reviews, make recommendations and grant approvals as set forth in this code.

104.4 Comprehensive plan. The code official shall assist the planning commission in the development and implementation of the comprehensive plan.

104.5 Administrative reviews and permits. Administrative reviews and permits shall be in accordance with Sections 104.5.1 through 104.5.4.

104.5.1 Review of building permits. All applications for building permits and amendments thereto shall be submitted to the code official for review and approved prior to permit issuance. Each application shall include a set of building

plans and all data necessary to show that the requirements of this code are met.

104.5.2 Site plan reviews. The code official shall receive all applications for site plan review and review for completeness and prepare submittals for review by the appropriate body.

104.5.3 Conditional-use permits and variances. The code official shall receive all applications for conditional uses and variances or other plans as shall be permitted or approved as required by this code, review for completeness and prepare submittals for review by the appropriate body.

104.5.4 Amendments. All requests for amendments or changes to the comprehensive plan or this code or map shall be submitted to the code official for processing.

104.6 Interpretations. The interpretation and application of the provisions of this code shall be by the code official. An appeal of an interpretation by the code official shall be submitted to the board of adjustment, who, unless otherwise provided, is authorized to interpret the code, and such interpretation shall be considered final.

Uses are permitted within the various zones as described in this code and as otherwise provided herein.

It is recognized that all possible uses and variations of uses that might arise cannot reasonably be listed or categorized. Mixed uses/sites or any use not specifically mentioned or about which there is any question shall be administratively classified by comparison with other uses identified in the zones described in this code. If the proposed use resembles identified uses in terms of intensity and character, and is consistent with the purpose of this code and the individual zone's classification, it shall be considered as a permitted/nonpermitted use within a general zone classification, subject to the regulations for the use it most nearly resembles. If a use does not resemble other identified allowable uses within a zone, it may be permitted as determined by the hearing body in public hearing as an amendment to this code pursuant to Section 109.3.

104.7 Liability. The code official, or designee, charged with the enforcement of this code, acting in good faith and without malice in the discharge of the duties described in this code, shall not be personally liable for any damage that may accrue to persons or property as a result of an act or by reason of an act or omission in the discharge of such duties. A suit brought against the code official or employee because such act or omission performed by the code official or employee in the enforcement of any provision of such codes or other pertinent laws or ordinances implemented through the enforcement of this code or enforced by the enforcement agency shall be defended by the jurisdiction until final termination of such proceedings, and any judgment resulting therefrom shall be assumed by the jurisdiction.

This code shall not be construed to relieve from or lessen the responsibility of any person owning, operating or controlling any building or parcel of land for any damages to persons or property caused by defects, nor shall the enforcement agency or its jurisdiction be held as assuming any such liability by reason of the reviews or permits issued under this code.

104.8 Cooperation of other officials and officers. The code official shall be authorized to request, and shall receive so far as is required in the discharge of the duties described in this code, the assistance and cooperation of other officials of the jurisdiction.

SECTION 105 PLANNING COMMISSION

4. The grant of the variance is not based solely on economic reasons.

5. The necessity for the variance was not created by the property owner.

7. The grant of the variance will not be injurious to the public health, safety or welfare.

When any building or parcel of land regulated by this code is being used contrary to this code, the code official shall be permitted to order such use discontinued and the structure, parcel of land, or portion thereof, vacated by notice served on any person causing such use to be continued. Such person shall discontinue the use within the time prescribed by the code official after receipt of such notice to make the structure, parcel of land, or portion thereof, comply with the requirements of this code.

SECTION 111 PERMITS AND APPROVALS

111.1 General. All departments, officials and employees which are charged with the duty or authority to issue permits or approvals shall issue no permit or approval for uses or purposes where the same would be in conflict with this code. Any permit

or approval, if issued in conflict with this code, shall be null and void.

111.2 Expiration or cancellation. Each license, permit or approval issued shall expire after 180 days if no work is undertaken or such use or activity is not established, unless a different time of issuance of the license or permit is allowed in this code, or unless an extension is granted by the issuing agency prior to expiration.

Failure to comply fully with the terms of any permit, license or approval shall be permitted to be grounds for cancellation or revocation. Action to cancel any license, permit or approval shall be permitted to be taken on proper grounds by the code official. Cancellation of a permit or approval by the commission or board shall be permitted to be appealed in the same manner as its original action.

111.3 Validity of licenses, permits and approvals. For the issuance of any license, permit or approval for which the commission or board is responsible, the code official shall require that the development or use in question proceed only in accordance with the terms of such license, permit or approval, including any requirements or conditions established as a condition of issuance. Except as specifically provided for in this code and conditions of approval, the securing of one required review or approval shall not exempt the recipient from the necessity of securing any other required review or approval.
