Cleanroom Housekeeping: Operating and Monitoring Procedures
This Recommended Practice is published by the INSTITUTE OF ENVIRONMENTAL SCIENCES AND TECHNOLOGY to advance the technical and engineering sciences. Its use is entirely voluntary, and determination of its applicability and suitability for any particular use is solely the responsibility of the user.

This Recommended Practice was prepared by and is under the jurisdiction of Working Group 018 of the IEST Contamination Control Division.

PROPOSAL FOR IMPROVEMENT: The Working Groups of the INSTITUTE OF ENVIRONMENTAL SCIENCES AND TECHNOLOGY are continually working on improvements to their Recommended Practices and Reference Documents. Suggestions from those who use these documents are welcome. If you have a suggestion regarding this document, please use the online Proposal for Improvement form found on the IEST website at www.iest.org/proposal/form.html.

Cleanroom Housekeeping: Operating and Monitoring Procedures

IEST-RP-CC018.4

1 SCOPE AND LIMITATIONS

1.1 Scope
This Recommended Practice (RP) provides guidance for maintaining a cleanroom at the level for which it was designed. This document is intended as a guide for establishing appropriate housekeeping procedures essential for the overall contamination control program of the cleanroom. In addition, test procedures are provided for use in establishing the frequency of housekeeping and monitoring the effectiveness of the housekeeping.

The test methods also are designed to help determine appropriate levels of surface cleanliness for specific cleanrooms.

1.2 Limitations
This RP does not specify acceptance limits, but does provide standard terminology for specifying desired limits.

NOTE: References to “cleanroom” in this document are to be construed, where appropriate, as including clean zones and clean-air devices.

2 REFERENCES
The cited editions of the following documents are incorporated into this RP to the extent specified herein. Users are encouraged to investigate the possibility of applying the most recent editions of the references.

2.1 American Society for Testing and Materials (ASTM)
ASTM F24-04: Standard Method for Measuring and Counting Particulate Contamination on Surfaces

2.2 Institute of Environmental Sciences and Technology (IEST)
IEST-RP-CC003.3: Garment System Considerations in Cleanrooms and Other Controlled Environments
IEST-RP-CC004.3: Evaluating Wiping Materials Used in Cleanrooms and Other Controlled Environments
IEST-RP-CC005.3: Gloves and Finger Cots Used in Cleanrooms and Other Controlled Environments
IEST-RP-CC007.1: Testing ULPA Filters

2.3 International Organization for Standardization (ISO)
ISO 14644-1:1999 Cleanrooms and associated controlled environments—Part 1: Classification of air cleanliness

2.4 United States Pharmacopeia (USP)
USP30-NF25: The United States Pharmacopeia and National Formulary
