Preface

This preface is included for informational purposes and is not part of ISA-18.1-1979 (R1992).

This standard has been prepared as part of the service of ISA toward a goal of uniformity in the field of instrumentation. To be of real value, this document should not be static, but should be subject to periodic review. Toward this end, the Society welcomes all comments and criticisms and asks that they be addressed to the Secretary, Standards and Practices Board, ISA, 67 Alexander Drive, P.O. Box 12277, Research Triangle Park, North Carolina 27709, Telephone (919) 549-8411, e-mail: standards@isa.org.

Based on work started in 1955 by a survey committee titled Instrument Alarms and Interlocks, the 8D-RP18 Committee on Annunciator Systems of the Production Processes was formed in 1969. Tentative Recommended Practice ISA-RP18.1, titled Specifications and Guides for the Use of General Purpose Annunciators, was completed by that Committee in 1965.

The committee, reactivated as Committee SP18, Instrument Signals and Alarms, began revising ISA-RP18.1 in 1976 to reflect current industry practice for annunciators; in 1991, the Nuclear Power Plant Standards Committee, SP67, assumed responsibility for the reaffirmation of this standard.

It is the policy of ISA to encourage and welcome the participation of all concerned individuals and interests in the development of ISA standards. Participation in the ISA standards-making process by an individual in no way constitutes endorsement by the employers of the individual, of ISA, or of any of the standards that ISA develops.

The information contained in the preface, footnotes, and appendices is included for information only and is not a part of the standard.

The following people served as members of SP67 at the time of this standard's 1992 reaffirmation:

NAME	COMPANY
R. Wiegler, Chairman	Philadelphia Electric Company
R. Naylor, Vice Chairman	Commonwealth Edison
M. Widmeyer, Managing Director	Washington Public Power Supply System
J. Mock, Secretary	Bechtel Corporation
R. Allen	ABB Combustion Engineering, Inc.
B. Basu	Southern California Edison Company
M. Belew	Tennessee Valley Authority
B. Beuchel	NAESCO/Seabrook Station
N. Dogra	Impell Corporation
A. Ellis*	Westinghouse Electric Corporation
R. Estes	Hurst Engineering, Inc.
H. Evans	Pyco, Inc.
V. Fregonese	Carolina Power & Light Company
R. Givan	Sargent & Lundy Engineers
W. Gordon*	Bechtel Corporation
T. Grochowski	UNC Engineering Services, Inc.
S. Hedden	Commonwealth Edison Company

*One vote per company
