Foreword.....	iv
1 Scope	1
2 Normative references	1
3 Terms and definitions.....	1
3.1 General terms	1
3.2 Steering parameters	3
3.3 Types of steering equipment.....	4
3.4 Types of steering transmission.....	5
4 General provisions for testing.....	6
5 Requirements, test procedures and acceptance criteria.....	6
5.1 Predictable response of the tractor	6
5.2 Steering response behaviour	7
5.3 Actuating forces/reaction forces.....	7
5.4 Simulation of failures (increased steering forces)	8
5.5 Energy supply/reserve and warnings	10
5.6 Adjustment devices/care/maintenance	11
5.7 Strength/durability of components	11
5.8 Steering systems containing complex electronic control systems	12
Annex A (normative) Special requirements to be applied to the safety aspects of complex electronic tractor control systems.....	13
Bibliography	18

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

International Standards are drafted in accordance with the rules given in the ISO/IEC Directives, Part 2.

The main task of technical committees is to prepare International Standards. Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights.

ISO 10998 was prepared by Technical Committee ISO/TC 23, *Tractors and machinery for agriculture and forestry*, Subcommittee SC 4, *Tractors*.

This second edition cancels and replaces the first edition (ISO 10998:1995), which has been technically revised.
