

Second edition
2017-09

Rubber hoses and hose assemblies — Compact wire-braid-reinforced hydraulic types for oil-based or water- based fluids — Specification

*Tuyaux et flexibles en caoutchouc — Types hydrauliques compacts
avec armature de fils métalliques tressés pour fluides à base d'huile
ou à base d'eau — Spécifications*

	Page
Foreword	iv
1 Scope	1
2 Normative references	1
3 Terms and definitions	2
4 Classification	2
5 Materials and construction	2
5.1 Hoses.....	2
5.2 Hose assemblies.....	2
6 Dimensions	2
6.1 Hose diameters and cover thickness.....	2
6.2 Concentricity.....	3
6.3 Hose cover thickness.....	3
7 Performance requirements	3
7.1 General.....	3
7.2 Change in length requirements.....	4
7.3 Hydrostatic requirements.....	4
7.4 Minimum bend radius.....	5
7.5 Resistance to impulse.....	5
7.5.1 Oil-based fluid impulse test.....	5
7.5.2 Water-based fluid impulse test.....	6
7.5.3 Optional impulse test.....	6
7.6 Leakage of hose assemblies.....	6
7.7 Cold flexibility.....	6
7.8 Adhesion between components.....	6
7.9 Vacuum resistance.....	7
7.10 Fluid resistance.....	7
7.10.1 General.....	7
7.10.2 Oil resistance.....	7
7.10.3 Water resistance.....	7
7.11 Ozone resistance.....	7
7.12 Visual examination.....	8
8 Marking	8
8.1 Hoses.....	8
8.2 Hose assemblies.....	8
9 Recommendations for length of supplied hoses and tolerances on lengths of hose assemblies	8
Annex A (normative) Type and routine testing of production hoses	9
Annex B (informative) Periodic testing of production hoses	10
Annex C (informative) Recommendations for lengths of supplied hoses and length tolerances for hose assemblies	11

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see www.iso.org/patents).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation on the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT) see the following URL: www.iso.org/iso/foreword.html.

This document was prepared by Technical Committee ISO/TC 45, *Rubber and rubber products*, Subcommittee SC 1, *Rubber and plastics hoses and hose assemblies*.

This second edition cancels and replaces the first edition (ISO 11237:2010), which has been technically revised.

The main changes compared to the previous edition are as follows:

- [Clause 1](#) has been updated to be more precise;
- [Clause 2](#) has been updated: ISO 4672 has been deleted and replaced by ISO 10619-2 and ISO 10619-1 has been added;
- [8.1](#) has been amended, year of publication of a standard shall be included in the marking if previous edition is used;
- [Clause 9](#) has been added to cite [Annex C](#).
