

Third edition
2021-08

Plastics — Polytetrafluoroethylene (PTFE) semi-finished products —

Part 2: Preparation of test specimens and determination of properties

*Plastiques — Semi-produits en polytétrafluoroéthylène (PTFE) —
Partie 2: Préparation des éprouvettes et détermination des propriétés*

Contents

	Page
Foreword	iv
1 Scope	1
2 Normative references	1
3 Terms and definitions	2
4 Sampling	2
5 Preparation of test specimens	2
6 Testing of semi-finished PTFE products	2
6.1 General.....	2
6.2 Linear dimensions.....	2
6.3 Tensile properties.....	3
6.3.1 Tensile specimens.....	3
6.3.2 Procedure.....	7
6.4 Density.....	7
6.5 Loss in mass at 300 °C.....	7
6.6 Dimensional stability — General method.....	8
6.6.1 Apparatus.....	8
6.6.2 Test specimen.....	8
6.6.3 Procedure.....	8
6.6.4 Expression of results.....	8
6.7 Dimensional stability — Special method for the determination of the dimensional and the geometrical stability of thick-walled tubes.....	8
6.7.1 Apparatus.....	8
6.7.2 Test specimen.....	8
6.7.3 Procedure.....	9
6.7.4 Expression of results.....	9
6.8 Dielectric strength.....	9
6.9 Hardness.....	9
6.10 Colour.....	9
6.11 Resistance to environmental stress cracking (ESC).....	9
Bibliography	10

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular, the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see www.iso.org/patents).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation of the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT), see www.iso.org/iso/foreword.html.

This document was prepared by Technical Committee ISO/TC 61, *Plastics*, Subcommittee SC 9, *Thermoplastic materials*, in collaboration with the European Committee for Standardization (CEN) Technical Committee CEN/TC 249, *Plastics*, in accordance with the Agreement on technical cooperation between ISO and CEN (Vienna Agreement).

This third edition cancels and replaces the second edition (ISO 13000-2:2005), which has been technically revised.

The main changes compared to the previous edition are as follows:

- in [Clause 2](#), normative references have been updated;
- the former Figure 2 has been split into two figures ([Figures 2](#) and [3](#)) and subsequent figures have been renumbered;
- in [Figures 2](#) and [3](#), new dimensions (thickness $1,5 \pm 0,25$ and $1,0 \pm 0,20$) have been added;
- in [Clause 6](#):
 - [Table 1](#) has been edited to compliment [Figures 2](#) and [3](#);
 - a new [Table 2](#) has been added to compliment [Figure 4](#);
- former Annex A has been changed to Bibliography, and titles for standards have been corrected.

A list of all parts in the ISO 13000 series can be found on the ISO website.

Any feedback or questions on this document should be directed to the user's national standards body. A complete listing of these bodies can be found at www.iso.org/members.html.
