Foreword	iv
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Fundamental requirements for spectacle lenses	1
4.1 Performance.....	1
4.2 Design.....	1
4.3 Materials.....	2
4.4 Mechanical strength.....	2
4.5 Transmittance.....	2
5 Test methods	3
5.1 General.....	3
5.2 Inflammability.....	3
5.3 Test for mechanical strength.....	3
6 Identification	5
6.1 Identification of the spectacle lens to be stated on the package of each individual spectacle lens or in an accompanying document.....	5
6.2 Information to be made available.....	6

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2. www.iso.org/directives

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received. www.iso.org/patents

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

The committee responsible for this document is ISO/TC 172, *Optics and photonics*, Subcommittee SC 7, *Ophthalmic optics and instruments*.

This third edition cancels and replaces the second edition (ISO 14889:2003), [subclauses 4.1](#), [4.4](#), [4.5.1](#) and [4.5.2](#) of which have been technically revised.
