

ISO 16140-2

**Microbiology of the food chain —
Method validation —**

Part 2:
**Protocol for the validation of
alternative (proprietary) methods
against a reference method**

AMENDMENT 1: Revision of
qualitative method comparison
study data evaluation, relative level
of detection calculations in the
interlaboratory study, calculation and
interpretation of the relative trueness
study, and inclusion of a commercial
sterility testing protocol for specific
products

*Microbiologie de la chaîne alimentaire — Validation des
méthodes —*

*Partie 2: Protocole pour la validation de méthodes alternatives
(commerciales) par rapport à une méthode de référence*

*AMENDEMENT 1: Révision de l'évaluation des données des études
de comparaison de méthodes qualitatives, des calculs du niveau
de détection de l'étude interlaboratoires et de l'interprétation
de l'étude de justesse relative, et ajout d'un protocole pour la
détermination de la stérilité commerciale pour des produits
spécifiques*

**First edition
2016-06-15**

**AMENDMENT 1
2024-09**

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular, the different approval criteria needed for the different types of ISO document should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

ISO draws attention to the possibility that the implementation of this document may involve the use of (a) patent(s). ISO takes no position concerning the evidence, validity or applicability of any claimed patent rights in respect thereof. As of the date of publication of this document, ISO had not received notice of (a) patent(s) which may be required to implement this document. However, implementers are cautioned that this may not represent the latest information, which may be obtained from the patent database available at www.iso.org/patents. ISO shall not be held responsible for identifying any or all such patent rights.

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation of the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT), see www.iso.org/iso/foreword.html.

This document was prepared by Technical Committee ISO/TC 34, *Food products*, Subcommittee SC 9, *Microbiology*, in collaboration with the European Committee for Standardization (CEN) Technical Committee CEN/TC 463, *Microbiology of the food chain*, in accordance with the Agreement on technical cooperation between ISO and CEN (Vienna Agreement).

A list of all parts in the ISO 16140 series can be found on the ISO website.

Any feedback or questions on this document should be directed to the user's national standards body. A complete listing of these bodies can be found at www.iso.org/members.html.
