Foreword	iv
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Classification	2
4.1 Series	2
4.2 Types	2
4.3 Models	2
4.4 Nominal sizes	2
4.5 Survey of types, models and sizes	2
5 Technical requirements	5
5.1 General	5
5.2 Dimensions	5
5.3 Glass retaining frame	7
5.4 Glass panes	9
5.5 Glazing	9
5.6 Fasteners (closing devices and hinges)	9
5.7 Gaskets for glassholder and deadlight	10
6 Materials	10
6.1 General	10
6.2 Main frame, glassholder, glass retaining frame and deadlight	10
6.3 Closing device and hinge pin	12
7 Testing	12
7.1 Board test	12
7.2 Shop test	12
7.3 Mechanical strength test	13
7.4 Fire-resistance test	14
8 Marking	14
8.1 Regular side scuttles (series N)	14
8.2 Side scuttles for fire-resistant constructions (series P)	14
9 Designation	14
9.1 Elements for designation	15
9.2 Examples	15
10 Positioning	15
11 Installation	15
Annex A (normative) Maximum allowable pressure for glass panes for side scuttles	17

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

International Standards are drafted in accordance with the rules given in the ISO/IEC Directives, Part 2.

The main task of technical committees is to prepare International Standards. Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights.

ISO 1751 was prepared by Technical Committee ISO/TC 8, *Ships and marine technology*, Subcommittee SC 8, *Ship design*.

This third edition cancels and replaces the second edition (ISO 1751:1993), which has been technically revised.
