Foreword	iv
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Requirements	9
4.1 Area measured	9
4.2 Measurement sample density	9
4.3 Measurement and report of performance	9
4.4 Colour presentation of results	9
5 Test methods and test devices	9
5.1 Tests	9
5.2 Test surfaces	9
5.3 Data collection — Test surfaces	11
5.4 Analysis of the data	11
6 Accompanying documents	13
7 Marking	13
Annex A (informative) Test surfaces for corneal topographers (CTs)	14
Annex B (normative) Standardized displays for corneal topographers (CTs)	16
Annex C (normative) Calculation of area-weighting values	19
Annex D (normative) Test methods for measuring human corneas	21
Bibliography	22

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

International Standards are drafted in accordance with the rules given in the ISO/IEC Directives, Part 2.

The main task of technical committees is to prepare International Standards. Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights.

ISO 19980 was prepared by Technical Committee ISO/TC 172, *Optics and photonics*, Subcommittee SC 7, *Ophthalmic optics and instruments*.

This second edition cancels and replaces the first edition (ISO 19980:2005), which has been technically revised.

This corrected version of ISO 19980:2012 incorporates the following corrections:

Equations (7) and (8), which were missing, have been added.
