## FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 3691 was developed by Technical Committee ISO/TC 110, *Industrial trucks*.

This second edition incorporates Addendum 1-1978 and draft Addendum 2, which were circulated to the member bodies in January 1977 and October 1978 respectively. It cancels and replaces the first edition, i.e. ISO 3691-1977.

The second edition has been approved in its entirety by the member bodies of the following countries :

Austria	Netherlands	Sweden
Belgium	Poland	Switzerland
Czechoslovakia	Romania	USA
