Foreword	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 General requirements	2
4.1 Operation instructions.....	2
4.2 Instruction of operating personnel.....	2
4.3 Documentation.....	2
5 Maintenance and repair	2
5.1 General.....	2
5.2 Maintenance.....	3
5.3 Repair.....	4
5.4 Change of refrigerant type.....	5
5.4.1 General.....	5
5.4.2 Planning the change of refrigerant type.....	5
5.4.3 Execution of the change of refrigerant type.....	5
6 Requirements for recovery, reuse and disposal	6
6.1 General requirements.....	6
6.1.1 Disposal.....	6
6.1.2 Personnel.....	6
6.1.3 Parts of refrigerating systems.....	6
6.1.4 Refrigerants.....	6
6.1.5 Handling.....	7
6.2 Requirements for recovery and reuse of refrigerant.....	7
6.2.1 General.....	7
6.2.2 Tests for reuse of refrigerants.....	8
6.2.3 Recovery for reuse.....	9
6.2.4 Recovery for recycling.....	9
6.2.5 Reclaim.....	9
6.3 Requirements for disposal.....	10
6.3.1 Refrigerant intended for further processing.....	10
6.3.2 Refrigerant not intended for further processing.....	10
6.3.3 Absorbed R-717 (ammonia).....	10
6.3.4 Refrigerating machine oil.....	10
6.3.5 Other components.....	10
6.4 Requirements for documentation.....	10
6.5 Requirements for refrigerant transfer, transport and storage.....	10
6.5.1 General.....	10
6.5.2 Refrigerant transfer.....	10
6.5.3 Transport.....	12
6.5.4 Storage.....	12
6.6 Requirements for recovery equipment.....	12
6.6.1 General.....	12
6.6.2 Operation in respect to the environment.....	12
6.6.3 Performance.....	13
6.6.4 Operation and maintenance.....	13
Annex A (normative) Draining the oil from a refrigerating system	14
Annex B (informative) Guide specification for recycled refrigerant	15
Annex C (informative) Handling and storage of refrigerants	16

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular, the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see www.iso.org/patents).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation of the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT), see www.iso.org/iso/foreword.html.

This document was prepared by Technical Committee ISO/TC 86, *Refrigeration and air-conditioning*, Subcommittee SC 1, *Safety and environmental requirements for refrigerating systems*.

This second edition cancels and replaces the first edition (ISO 5149-4:2014), which has been technically revised.

The main changes are as follows:

- revision of [Figure 2](#);
- addition of guidelines for repairs of equipment using flammable refrigerants in [Annex E](#).

A list of all parts in the ISO 5149 series can be found on the ISO website.

Any feedback or questions on this document should be directed to the user's national standards body. A complete listing of these bodies can be found at www.iso.org/members.html.
