Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

International Standard ISO 609 was prepared by Technical Committee ISO/TC 27, *Solid mineral fuels*, Subcommittee SC 5, *Methods of analysis*.

This second edition cancels and replaces the first edition (ISO 609:1975), which has been technically revised.

Annex A of this International Standard is for information only.

Introduction

An alternative method to that specified in this International Standard is given in ISO 625:1996, *Solid mineral fuels — Determination of carbon and hydrogen — Liebig method*.

TECHNICAL CORRIGENDUM 1

Combustibles minéraux solides — Dosage du carbone et de l'hydrogène — Méthode par combustion à haute température

RECTIFICATIF TECHNIQUE 1

Technical corrigendum 1 to International Standard ISO 609:1996 was prepared by Technical Committee ISO/TC 27, *Solid mineral fuels*, Subcommittee SC 5, *Methods of analysis*.

Page 2, subclause 5.3, item b)

Insert "carbon" before "dioxide".

Page 4, subclause 5.5, item b)

Insert "the" before "carbon dioxide".

Page 5, subclause 5.8

Change "(see note 6)" to "(see note 5)" in line 8.

Page 6, subclause 6.2

Delete "(see 5.10)" after "pressure regulator" in the fourth paragraph.

Page 8, subclause 8.2

Change "(see 8.3)" to "(see note 8)" in the second last line.

Insert note 8 and the two following paragraphs i.e. "Insert the charged ... be reduced as described above." at the end of 8.2 as a new note 8.

ICS 73.040; 75.160.10

Ref. No. ISO 609:1996/Cor.1:1996(E)

Descriptors: solid fuels, fossil fuels, coal, lignite, coke, chemical analysis, determination of content, carbon, hydrogen, combustion analysis, gravimetric analysis.
