Third edition
2015-05-15

Cycles — Lighting and retro-reflective devices —

Part 1:

Lighting and light signalling devices

Cycles — Éclairage et dispositifs rétro-réfléchissants —

Partie 1: Équipements de signalisation et d'éclairage

Reference number
ISO 6742-1:2015(E)

Contents

	Page
Foreword	iv
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Photometrical requirements	2
4.1 General	2
4.2 Front position lamp	3
4.2.1 Photometric requirements	3
4.2.2 Mode of illumination	3
4.3 Rear lamp	4
4.3.1 Photometric requirements	4
4.3.2 Mode of illumination	4
4.4 Stop lamp	5
4.4.1 Photometric requirements	5
4.4.2 Mode of illumination	6
4.5 Low beam	6
4.5.1 Photometric requirements	6
4.5.2 Mode of illumination	8
4.6 High beam	8
4.6.1 Photometric requirements	8
4.6.2 Mode of illumination	9
4.6.3 Additional requirements	9
4.7 Direction indicators	10
4.7.1 Photometric requirements	10
4.7.2 Mode of illumination	11
4.8 Stand light	11
4.8.1 Photometric requirements	11
4.8.2 Mode of illumination	12
5 Colour requirements	12
6 Test methods	12
6.1 General	12
6.2 Power supply and light source to test photometrical performances	13
6.3 Installation on test bench	13
Annex A (informative) Measurement of flashing light	14
Annex B (normative) Colour of the light emitted	16
Bibliography	18

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see www.iso.org/patents).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation on the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the WTO principles in the Technical Barriers to Trade (TBT), see the following URL: [Foreword — Supplementary information](#).

The committee responsible for this document is ISO/TC 149, *Cycles*, SC 1, *Cycles and major sub-assemblies*.

This third edition cancels and replaces the second edition (ISO 6742-1:1987), which has been technically revised.

ISO 6742 consists of the following parts, under the general title *Cycles — Lighting and retro-reflective devices*:

- *Part 1: Lighting and light signalling devices*
- *Part 2: Retro-reflective devices*
- *Part 3: Installation and use of lighting and retro-reflective devices*
- *Part 4: Lighting systems powered by the cycle's movement*
- *Part 5: Lighting systems not powered by the cycle's movement*
