## Contents

	Page
<b>Foreword</b> .....	<b>iv</b>
<b>1 Scope</b> .....	<b>1</b>
<b>2 Normative references</b> .....	<b>1</b>
<b>3 Terms and definitions</b> .....	<b>1</b>
3.1 General.....	1
3.2 Terms and definitions explained by figures.....	2
3.2.1 Terms related to the cutting process.....	2
3.2.2 Terms on the cut work piece.....	3
3.2.3 Cut types.....	4
<b>4 Symbols</b> .....	<b>8</b>
<b>5 Form and location tolerances</b> .....	<b>9</b>
<b>6 Determination of the quality of cut surfaces</b> .....	<b>9</b>
6.1 General.....	9
6.2 Measuring.....	10
6.2.1 Measuring conditions.....	10
6.2.2 Measuring point.....	10
6.2.3 Procedure.....	11
<b>7 Quality of the cut surface</b> .....	<b>12</b>
7.1 Characteristic values.....	12
7.2 Measuring ranges.....	12
7.2.1 General.....	12
7.2.2 Perpendicularity or angularity tolerance, $u$ .....	12
7.2.3 Mean height of the profile, $Rz5$ .....	13
<b>8 Dimensional tolerances</b> .....	<b>15</b>
8.1 General.....	15
8.2 Dimensional tolerances on parts without finishing.....	18
8.3 Dimensional tolerances on parts with finishing.....	18
8.3.1 General.....	18
8.3.2 Machining allowance.....	19
<b>9 Designation</b> .....	<b>19</b>
<b>10 Information in technical documentation</b> .....	<b>20</b>
10.1 Indications of size.....	20
10.2 Indication of quality of cut surface and of tolerance class.....	20
10.2.1 On technical drawings.....	20
10.2.2 Title block of technical documentation.....	20
<b>Annex A (informative) Achievable cut qualities for different cutting processes</b> .....	<b>21</b>
<b>Annex B (informative) Thermal cutting — Process principles</b> .....	<b>26</b>
<b>Bibliography</b> .....	<b>28</b>

## Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see [www.iso.org/directives](http://www.iso.org/directives)).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see [www.iso.org/patents](http://www.iso.org/patents)).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation on the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT) see the following URL: [www.iso.org/iso/foreword.html](http://www.iso.org/iso/foreword.html).

The committee responsible for this document is ISO/TC 44, *Welding and allied processes*, Subcommittee SC 8, *Equipment for gas welding, cutting and allied processes*.

This third edition cancels and replaces the second edition (ISO 9013:2002), which has been technically revised.

Requests for official interpretations of any aspect of this document should be directed to the Secretariat of ISO/TC 44/SC 8 via your national standards body. A complete listing of these bodies can be found at [www.iso.org](http://www.iso.org).
