Second edition
2015-09-01

Non-destructive testing — Magnetic particle testing —

Part 2: Detection media

*Essais non destructifs — Magnétoscopie —
Partie 2: Produits indicateurs*

Reference number
ISO 9934-2:2015(E)

Foreword	iv
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Safety precautions	2
5 Classification	2
5.1 General.....	2
5.2 Magnetic inks.....	2
5.3 Powders.....	2
6 Testing and test certificate	2
6.1 Type testing and batch testing.....	2
6.2 In-service testing.....	2
7 Requirements and test methods	2
7.1 Performance.....	2
7.1.1 Type testing and batch testing.....	2
7.1.2 In-service testing.....	3
7.1.3 Contrast aid paints.....	3
7.2 Colour.....	3
7.3 Particle size.....	3
7.3.1 Method.....	3
7.3.2 Definition of the particle size.....	3
7.4 Temperature resistance.....	3
7.5 Fluorescent coefficient and fluorescent stability.....	3
7.5.1 Type testing.....	4
7.5.2 Batch testing.....	5
7.6 Fluorescence of carrier liquid.....	5
7.7 Flash point.....	5
7.8 Corrosion induced by detection media.....	5
7.8.1 Corrosion testing on steel.....	5
7.8.2 Corrosion testing of copper.....	5
7.9 Viscosity of the carrier liquid.....	5
7.10 Mechanical stability.....	5
7.10.1 Long term test (endurance test).....	5
7.10.2 Short-term test.....	6
7.11 Foaming.....	8
7.12 pH.....	8
7.13 Storage stability.....	8
7.14 Solids content.....	8
7.15 Sulfur and halogen content.....	8
8 Testing requirements	8
9 Test report	9
10 Packaging and labelling	9
Annex A (normative) Procedure for type, batch, and in-service testing	10
Annex B (normative) Reference blocks	12
Annex C (normative) Corrosion testing of steel	17
Bibliography	21

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see www.iso.org/patents).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation on the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the WTO principles in the Technical Barriers to Trade (TBT) see the following URL: [Foreword - Supplementary information](#).

ISO 9934-2 was prepared by the European Committee for Standardization (CEN) Technical Committee CEN/TC 138, *Non-destructive testing*, in collaboration with ISO/TC 135, *Non-destructive testing*, Subcommittee SC 2, *Surface methods*, in accordance with the Agreement on technical cooperation between ISO and CEN (Vienna Agreement).

This second edition cancels and replaces the first edition (ISO 9934-2:2002), which has been technically revised.

ISO 9934 consists of the following parts under the general title *Non-destructive testing — Magnetic particle testing*:

- *Part 1: General principle*
- *Part 2: Detection media*
- *Part 3: Equipment*
