Foreword.....	iv
1 Scope	1
2 Normative reference(s).....	1
3 Terms, definitions, symbols and abbreviated terms.....	2
3.1 Terms and definitions.....	2
3.2 Symbols and abbreviated terms	2
4 Default items applicable to the test methods	2
4.1 Test environment.....	2
4.2 Pre-conditioning	3
4.3 Default tolerance.....	3
4.4 Spurious inductance	3
4.5 Total measurement uncertainty	3
5 Static electricity test	3
5.1 Apparatus	4
5.2 Procedure	4
5.3 Test report	4
6 Test apparatus and test circuits.....	5
6.1 Calibration coil	5
6.2 Test VCD assembly.....	6
6.3 Reference VICCs.....	7
6.4 Digital sampling oscilloscope	8
7 Functional test — VICC	9
7.1 Purpose.....	9
7.2 Test procedure	9
7.3 Test report	9
8 Functional test — VCD	9
8.1 VCD field strength and power transfer	9
8.2 Modulation index and waveform	10
8.3 Load modulation reception.....	11
Annex A (normative) Test VCD antenna	12
Annex B (informative) Test VCD antenna tuning	15
Annex C (normative) Sense coil	17
Annex D (normative) Reference VICC for VCD power test	19
Annex E (informative) Reference VICC for load modulation test	21
Annex F (informative) Program for evaluation of the spectrum	22

Foreword

ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work. In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC 1.

International Standards are drafted in accordance with the rules given in the ISO/IEC Directives, Part 2.

The main task of the joint technical committee is to prepare International Standards. Draft International Standards adopted by the joint technical committee are circulated to national bodies for voting. Publication as an International Standard requires approval by at least 75 % of the national bodies casting a vote.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO and IEC shall not be held responsible for identifying any or all such patent rights.

ISO/IEC 10373-7 was prepared by Joint Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee SC 17, *Cards and personal identification*.

This second edition cancels and replaces the first edition (ISO/IEC 10373-7:2001), Clause 5 and subclause 6.3.5 of which have been technically revised.

ISO/IEC 10373 consists of the following parts, under the general title *Identification cards — Test methods*:

- *Part 1: General characteristics*
- *Part 2: Cards with magnetic stripes*
- *Part 3: Integrated circuit(s) cards with contacts and related interface devices*
- *Part 5: Optical memory cards*
- *Part 6: Proximity cards*
- *Part 7: Vicinity cards*
