**About the IEC**

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

**About IEC publications**

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

**IEC Catalogue - [webstore.iec.ch/catalogue](http://webstore.iec.ch/catalogue)**

The stand-alone application for consulting the entire bibliographical information on IEC International Standards, Technical Specifications, Technical Reports and other documents. Available for PC, Mac OS, Android Tablets and iPad.

**IEC publications search - [www.iec.ch/searchpub](http://www.iec.ch/searchpub)**

The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, replaced and withdrawn publications.

**IEC Just Published - [webstore.iec.ch/justpublished](http://webstore.iec.ch/justpublished)**

Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and also once a month by email.

**Electropedia - [www.electropedia.org](http://www.electropedia.org)**

The world's leading online dictionary of electronic and electrical terms containing more than 30 000 terms and definitions in English and French, with equivalent terms in 15 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

**IEC Glossary - [std.iec.ch/glossary](http://std.iec.ch/glossary)**

More than 60 000 electrotechnical terminology entries in English and French extracted from the Terms and Definitions clause of IEC publications issued since 2002. Some entries have been collected from earlier publications of IEC TC 37, 77, 86 and CISPR.

**IEC Customer Service Centre - [webstore.iec.ch/csc](http://webstore.iec.ch/csc)**

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: [csc@iec.ch](mailto:csc@iec.ch).

## CONTENTS

FOREWORD.....	5
1 Scope.....	6
2 Normative references .....	6
3 Terms, definitions, abbreviations, keywords, and conventions .....	7
3.1 Terms and definitions.....	7
3.2 Abbreviations.....	8
3.3 Keywords.....	8
3.4 Conventions.....	9
3.4.1 Non-numeric values.....	9
3.4.2 Numeric values.....	10
4 RBC device model.....	10
4.1 General.....	10
4.2 Removable medium device .....	10
4.3 Command usage.....	11
4.3.1 General .....	11
4.3.2 Using the INQUIRY command.....	11
4.3.3 Using the REQUEST SENSE command.....	11
4.3.4 FORMAT UNIT command progress determination.....	11
4.4 Using the PREVENT ALLOW MEDIUM REMOVAL command.....	12
4.4.1 General .....	12
4.4.2 START STOP UNIT command state restrictions.....	12
4.5 Logical Blocks.....	12
4.6 Reservations.....	13
5 Reduced Block Commands.....	14
5.1 General.....	14
5.2 FORMAT UNIT command.....	16
5.3 READ(10) Command.....	17
5.4 READ CAPACITY command .....	17
5.5 START STOP UNIT command .....	18
5.5.1 General .....	18
5.5.2 Power conditions .....	19
5.5.3 Enable/Disable bits.....	20
5.6 SYNCHRONIZE CACHE command .....	21
5.7 VERIFY command.....	21
5.8 WRITE(10) command.....	22
5.9 Mode parameters .....	23
5.9.1 General .....	23
5.9.2 Mode parameter list.....	23
5.9.3 Mode Parameter header .....	23
5.9.4 RBC Device Parameter's page.....	23
6 SPC-2 implementation requirements for RBC devices.....	25
6.1 General.....	25
6.2 INQUIRY command.....	25
6.2.1 Standard INQUIRY data.....	25
6.2.2 INQUIRY vital product data pages .....	26
6.3 MODE SELECT(6) command .....	27

6.4	MODE SENSE(6) command .....	27
6.5	PREVENT ALLOW MEDIUM REMOVAL.....	28
6.6	REQUEST SENSE command .....	28
6.7	TEST UNIT READY command .....	28
6.8	WRITE BUFFER Command.....	29
6.8.1	General .....	29
6.8.2	Download microcode and save mode (101b).....	30
6.8.3	Download microcode with offsets and save mode (111b) .....	30
7	Asynchronous event notification for RBC devices .....	30
7.1	General.....	30
7.2	Unit attention .....	31
7.2.1	General .....	31
7.2.2	Power condition change notification.....	31
7.3	Deferred errors .....	31
7.4	Information exception condition notification.....	31
7.5	Event status notification .....	31
7.5.1	General .....	31
7.5.2	Event Status sense information .....	32
7.5.3	Power Management CLASS event INFORMATION field .....	32
7.5.4	MEDIA CLASS EVENT INFORMATION field.....	33
7.5.5	DEVICE BUSY CLASS EVENT INFORMATION field .....	34
7.5.6	Event status retention.....	35
7.5.7	Removable medium device initial response.....	35
Annex A (normative)	RBC device implementation requirements for SBP-2 .....	36
A.1	SBP-2 terms and definitions.....	36
A.1.1	Terms and definitions .....	36
A.1.2	Abbreviations.....	38
A.2	SBP-2 storage model.....	38
A.2.1	General .....	38
A.2.2	Model configuration .....	38
A.2.3	Reconnect/Power reset support .....	40
A.3	Configuration ROM support.....	40
A.3.1	General .....	40
A.3.2	Unit Directory – Command_Set_Spec_ID.....	40
A.3.3	Unit Directory – Command_Set.....	41
A.3.4	Unit Directory – Logical_Unit_Number .....	41
A.4	Security support.....	41
A.5	Status block support .....	41
A.6	Unsolicited Status support .....	42
A.6.1	General .....	42
A.6.2	Unit attention condition .....	42
A.6.3	Event Status retention .....	42

## INFORMATION TECHNOLOGY – SMALL COMPUTER SYSTEM INTERFACE (SCSI) –

### Part 326: Reduced block commands (RBC)

#### FOREWORD

- 1) ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work. In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC 1.
- 2) The formal decisions or agreements of IEC and ISO on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees and ISO member bodies.
- 3) IEC, ISO and ISO/IEC publications have the form of recommendations for international use and are accepted by IEC National Committees and ISO member bodies in that sense. While all reasonable efforts are made to ensure that the technical content of IEC, ISO and ISO/IEC publications is accurate, IEC or ISO cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees and ISO member bodies undertake to apply IEC, ISO and ISO/IEC publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any ISO, IEC or ISO/IEC publication and the corresponding national or regional publication should be clearly indicated in the latter.
- 5) ISO and IEC do not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. ISO or IEC are not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or ISO or its directors, employees, servants or agents including individual experts and members of their technical committees and IEC National Committees or ISO member bodies for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication of, use of, or reliance upon, this ISO/IEC publication or any other IEC, ISO or ISO/IEC publications.
- 8) Attention is drawn to the normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this ISO/IEC publication may be the subject of patent rights. ISO and IEC shall not be held responsible for identifying any or all such patent rights.

International Standard ISO/IEC 14776-326 was prepared by subcommittee 25: Interconnection of information technology equipment, of ISO/IEC joint technical committee 1: Information technology.

This second edition cancels and replaces the first edition published in 2002 and constitutes a minor revision.

This second edition provides additional explanations and corrects mistakes with respect to the first edition.

A list of all parts in the ISO/IEC 14776 series, published under the general title *Information technology – Small computer system interface (SCSI)*, can be found on the IEC website.

This International Standard has been approved by vote of the member bodies, and the voting results may be obtained from the address given on the second title page.

This publication has been drafted in accordance with the ISO/IEC Directives, Part 2.
