Foreword

219 The *Cloud Infrastructure Management Interface (CIMI) Model and RESTful HTTP-based Protocol*
220 specification (DSP0263) was prepared by the DMTF Cloud Management Working Group. It defines a
221 logical model for the management of resources within the Infrastructure as a Service domain.

222 DMTF is a not-for-profit association of industry members dedicated to promoting enterprise and systems
223 management and interoperability.
