Foreword

ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and nongovernmental, in liaison with ISO and IEC, also take part in the work.

In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC1. Draft International Standards adopted by the joint technical committee are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75% of the national bodies casting a vote.

International Standard ISO/IEC 8859-15 was prepared by Joint Technical Committee ISO/IEC JTC1, *Information technology,* Subcommittee SC2, *Coded character sets.*

ISO/IEC 8859 consists of the following parts, under the general title *Information technology – 8-bit single-byte coded graphic character sets:*

- – *Part 1:   Latin alphabet No. 1*
- – *Part 2:   Latin alphabet No. 2*
- – *Part 3:   Latin alphabet No. 3*
- – *Part 4:   Latin alphabet No. 4*
- – *Part 5:   Latin/Cyrillic alphabet*
- – *Part 6:   Latin/Arabic alphabet*
- – *Part 7:   Latin/Greek alphabet*
- – *Part 8:   Latin/Hebrew alphabet*
- – *Part 9:   Latin alphabet No. 5*
- – *Part 10: Latin alphabet No. 6*
- – *Part 11: Latin/Thai alphabet*
- – *Part 12: (unassigned)*
- – *Part 13: Latin alphabet No. 7 (Baltic Rim)*
- – *Part 14: Latin alphabet No. 8 (Celtic)*
- – *Part 15: Latin alphabet No. 9*

Annexes A and B of this part of ISO/IEC 8859 are for information only.

Introduction

ISO/IEC 8859 consists of several parts. Each part specifies a set of up to 191 graphic characters and the coded representation of these characters by means of a single 8-bit byte. Each set is intended for use for a particular group of languages.
