Chapter 1 Administration

1.1 Scope
1.2 Purpose
1.3 Application
1.4 Retroactivity
1.5 Equivalency
1.6 Units and Formulas

Chapter 2 Referenced Publications

2.1 General
2.2 NFPA Publications
2.3 Other Publications
2.4 References for Extracts in Mandatory Sections

Chapter 3 Definitions

3.1 General
3.2 NFPA Official Definitions
3.3 General Definitions

Chapter 4 System Components and System Types

4.1 General
4.2 Water Supplies
4.3 Foam Concentrates
4.4 Concentrate Compatibility
4.5 Foam Proportioning
4.6 Foam Concentrate Pumps
4.7 Piping
4.8 System Types
4.9 Operation and Control of Systems

Chapter 5 Low-Expansion System Design

5.1 Types of Hazards
5.2 Outdoor Fixed Roof (Cone) Tanks
5.3 Outdoor Open-Top Floating Roof Tanks
5.4 Outdoor Covered (Internal) Floating Roof Tanks
5.5 Indoor Hazards
5.6 Loading Racks
5.7 Diked Areas - Outdoor
5.8 Nondiked Spill Areas
5.9 Supplementary Protection

Chapter 6 Medium- and High-Expansion Systems

6.1 General Information and Requirements
6.2 Use and Limitations
6.3 Hazards Protected
6.4 Types of Systems
6.5 Systems Protecting One or More Hazards
Chapter 7 Compressed Air Foam Systems

7.1 General
7.2 Water Supplies
7.3 Foam Concentrate
7.4 Air or Nitrogen Supply
7.5 Compressed Air Foam-Generating Method
7.6 Distribution Systems
7.7 Compressed Air Foam Discharge Devices
7.8 Operation and Control of Systems
7.9 System Types
7.10 Limitations
7.11 System Design
7.12 Installation of Piping and Fittings
7.13 Installation of Automatic Detection
7.14 CAFS Discharge Device Choice and Location
7.15 Discharge Density
7.16 Discharge Duration
7.17 System Flow Calculation
7.18 Plans and Specifications
7.19 Testing and Acceptance
7.20 Maintenance

Chapter 8 Specifications and Plans

8.1 Approval of Plans
8.2 Specifications
8.3 Plans

Chapter 9 Installation Requirements

9.1 Foam Concentrate Pumps
9.2 Flushing
9.3 Power Supply
9.4 Low-Expansion System Piping
9.5 Valves in Low-Expansion Systems
9.6 Hangers, Supports, and Protection for Pipework
9.7 Hose Requirements
9.8 Test Connections

Chapter 10 Low-Expansion Foam Systems for Marine Applications

10.1 General
10.2 Fixed Low-Expansion Foam Systems for Machinery Spaces
10.3 Fixed Low-Expansion Foam Systems on Deck for Petroleum and Chemical Tankers

10.4 Foam Outlet Devices

10.5 Monitors

10.6 Hand Hoselines

10.7 Hydraulic Calculations

10.8 Isolation Valves

10.9 Hangers, Supports, and Protection of Pipework

10.10 Testing and Inspection

10.11 Foam System Concentrate Storage

10.12 Supply Arrangements

10.13 Piping Materials

Chapter 11 Testing and Acceptance

11.1 Inspection and Visual Examination

11.2 Flushing after Installation

11.3 Acceptance Tests

11.4 Pressure Tests

11.5 Operating Tests

11.6 Discharge Tests

11.7 Approval of Low-, Medium-, and High-Expansion Foam Systems

11.8 System Restoration

Chapter 12 Maintenance

12.1 Inspection, Testing, and Maintenance

12.2 Foam-Producing Equipment

12.3 Piping

12.4 Strainers

12.5 Detection and Actuation Equipment

12.6 Foam Concentrate Inspection

12.7 High-Pressure Cylinders

12.8 Operating Instructions and Training

Annex A Explanatory Material

Annex B Storage Tank Protection Summary

Annex C Medium- and High-Expansion Foam

Annex D Tests for Foam Systems

Annex E Foam Environmental Issues

Annex F Test Method for Marine Fire-Fighting Foam Concentrates Protecting Hydrocarbon Hazards

Annex G Foam Concentrate Quality

Annex H Informational References

Index
