American National Standards Institute
Disclaimers

NSF International (NSF), in performing its functions in accordance with its objectives, does not assume or undertake to discharge any responsibility of the manufacturer or any other party. The opinions and findings of NSF represent its professional judgment. NSF shall not be responsible to anyone for the use of or reliance upon this Standard by anyone. NSF shall not incur any obligation or liability for damages, including consequential damages, arising out of or in connection with the use, interpretation of, or reliance upon this Standard.

NSF Standards provide basic criteria to promote sanitation and protection of the public health. Provisions for mechanical and electrical safety have not been included in this Standard because governmental agencies or other national standards-setting organizations provide safety requirements.

Participation in NSF Standards development activities by regulatory agency representatives (federal, local, state) shall not constitute their agency’s endorsement of NSF or any of its Standards.

Preference is given to the use of performance criteria measurable by examination or testing in NSF Standards development when such performance criteria may reasonably be used in lieu of design, materials, or construction criteria.

The illustrations, if provided, are intended to assist in understanding their adjacent standard requirements. However, the illustrations may not include all requirements for a specific product or unit, nor do they show the only method of fabricating such arrangements. Such partial drawings shall not be used to justify improper or incomplete design and construction.

Unless otherwise referenced, the annexes are not considered an integral part of NSF Standards. The annexes are provided as general guidelines to the manufacturer, regulatory agency, user, or certifying organization.

Foreword

The purpose of NSF/ANSI 455-3 is to serve as an evaluation tool for analyzing good manufacturing practices (GMP) for cosmetics manufacturers. Certification to this Standard serves as a communication tool between manufacturers of cosmetics, regulators, retailers, and consumers.

This Standard was developed by the NSF Joint Committee on GMP for Cosmetics using the consensus process described by the American National Standards Institute, and with participation from cosmetics manufacturers, public health regulators, and consumers and retailers of cosmetics.

Suggestions for improvement of this Standard are welcome. This Standard is maintained on a continuous maintenance schedule and can be opened for comment at any time. Comments should be sent to Chair, Joint Committee on Good Manufacturing Practices for Cosmetics at standards@nsf.org, or c/o NSF International, Standards Department, PO Box 130140, Ann Arbor, Michigan 48113-0140, USA.

NSF/ANSI Standard
for Good Manufacturing Practices –

Good Manufacturing Practices
for Cosmetics

1 General

1.1 Purpose

The principles outlined in this Standard provide a comprehensive basis for the quality management system used in the manufacture of cosmetics. Implementation of these principles shall result in the achievement of three main objectives:

— **achieve cosmetics realization**: the organization shall implement and maintain a system that delivers cosmetics with the quality attributes necessary to meet the requirements and expectations of customers, retailers, and regulatory authorities;

— **establish and maintain a state of control**: the organization shall ensure the manufacture and supply of cosmetics is in accordance with this Standard, thus providing customers with some assurance of continued suitability and reliability of supply; and

— **facilitate continual improvement**: the organization shall collect objective evidence to continually develop and enhance the application of these quality management system principles to further assure cosmetics consistency.

1.2 Scope

This Standard is intended to define a standardized approach for auditing to determine the level of compliance of cosmetic products to ISO 22716 – Cosmetics -- Good Manufacturing Practices (GMPs) for Cosmetics – Guidelines on Good Manufacturing Practices, FDA Cosmetic GMP Guidance, as well as incorporating additional retailer requirements <www.fda.gov/cosmetics/guidanceregulation/guidance documents/ucm353046.htm> and <www.fda.gov/cosmetics/registrationprogram/ucm2005171.htm>. It refers to the requirements for GMPs applicable to all cosmetics. It will assist in the determination of adequate facilities and controls for cosmetic manufacture with sufficient quality to ensure suitability for intended use. The criteria in this Standard was structured to be in the ISO 9001:2015 format, following a 7 systems approach.

2 Normative references

The following documents contain requirements that, by reference in this text, constitute requirements of this Standard. At the time of publication, the indicated editions were valid. All of the documents are subject to revision and parties are encouraged to investigate the possibility of applying the recent editions of the documents indicated below. The most recent published edition of the document shall be used for undated references.
